100 practical and easy to implement ideas to make your lessons outstanding.

'An absolute gift to the RE community.' Mary Myatt With an emphasis on all faiths and beliefs, 100 Ideas for Secondary Teachers: Outstanding RE Lessons presents tried-and-tested ideas that can be used in any lesson about religion. Andy Lewis uses his experience as Director of Religious Education to share ideas and advice on how to construct a successful RE lesson, engage students in the subject, provide effective feedback and exam techniques, and bring RE to life in the secondary curriculum. RE can be a very difficult subject to teach as many of the topics that come up can be challenging to discuss with young people, especially with the complexities in legal status, curriculum content and public perceptions. God, ethics, death – just a few topics that could cause controversy in your classroom! Covering a range of different faiths, beliefs and worldviews, this book is suitable for all RE teachers regardless of the syllabus they are teaching. 100 Ideas for Secondary Teachers: Outstanding RE Lessons is the essential resource for helping students to develop an understanding between communities and eradicate religious prejudices and stereotypes, with cross-curricular strategies that reach out to members of local faith communities and use technology to 'visit' sacred sites.

Split into sections on grammar, vocabulary, speaking, listening, reading, writing, translation and revision, 100 Ideas for Secondary Teachers: Outstanding MFL Lessons presents tried-and-tested ideas that cover all aspects of the modern foreign languages (MFL) curriculum. Experienced MFL teacher, Dannielle Warren, shares interactive games and activities to support and challenge all students learning a modern foreign language. This accessible resource presents suggestions for helping students revise effectively and strategies for marking and feedback to enable their progress. It is suitable for all MFL teachers, regardless of the language they teach, and includes examples in French, Spanish and German. With online resources and ideas ranging from pass the parcel to drawing dictation, 100 Ideas for Secondary Teachers: Outstanding MFL Lessons is ideal for all teachers in need of some inspiration and fresh ideas.

Winner of best Secondary non-ICT resource at the 2016 ERA awards, this is a brand new title in the successful 100 ideas series which provides secondary school science teachers with practical ideas and activities to use in their lessons as well as teaching and planning strategies to help make practice outstanding every day. The author is a science teacher and winner of the Wellcome Trust Enthuse award for Science. He has a growing Twitter following and the book will be full of his really original and engaging science ideas. The book will include ideas on integrating literacy into science lessons, safety in the lab and ideas for challenging the more able.

100 IDEAS: QUICK - EASY - INSPIRED - OUTSTANDING Teaching mathematics in the secondary school can be very demanding especially with the extra pressure of 'no notice' Ofsted inspections. In this fully updated book Mike Ollerton offers strategies and activities for you to integrate into your everyday teaching to ensure your lessons are consistently outstanding and include all the mathematics skills secondary students need to study. Topics include algebra, fractions, geometry and measurement, as well as domino and dice games and an exciting study of Fibonacci. Many of the ideas start from a very simple concept that can be developed into more challenging mathematics, allowing you to differentiate your teaching to inspire, challenge and motivate every student in your class. The book includes step-by-step instructions, diagrams to exemplify the techniques and teaching tips for the best ways to put the activities into practice. Your biggest problem will be deciding which idea to use first! Mike Ollerton has taught for 25 years in secondary schools and is now working as a teacher trainer.

The word 'revision' can strike fear into the heart of teachers and students alike! The exam cycle in today’s modern education system can feel relentless, resulting in students suffering from information overload and exam fatigue. But it doesn't have to be like this! John Mitchell strongly believes that revision can be a opportunity to deepen students' understanding of a topic in an innovative, collaborative, and fun way - you just need to think outside the box! In this brilliant book, John Mitchell offers a diverse range of activities, games, tips and tricks that teachers can use in the classroom to help guide students through this stressful period. By combing theory with strategies tried and tested in the classroom, it will help teachers to create a culture where students are encouraged to review and reinforce their learning. This consistent approach means that revision becomes an everyday process rather than one that is just used in the run up to exams. From adaptations of well-known games, such as Connect Four and Runaround, to brand new activities, there are ideas that are suitable for very learning style and subject. 100 Ideas for Secondary Teachers: Revision will help you to prepare students for exams effectively, alleviate stress, and reintroduce fun into your revision sessions.

As Ofsted says, Literacy is a shared responsibility across the curriculum in secondary schools. But for subject teachers and school leaders outside of the English department, this can seem a daunting task. 100 Ideas for Secondary Teachers: Literacy Across the Curriculum contains all sorts of strategies and ideas for ensuring that pupils are developing competency in reading and writing in every subject, from maths to PE, without putting pressure on teachers' time and resources. The perfect quick-reference pocket book, this collection of creative and original ideas from English expert Graham Tyrer has something for everyone, ensuring all teachers and school staff are able to support students in gaining confidence in literacy. By picking and choosing relevant ideas, busy teachers can develop both short and long term strategies for cross-curricular teaching that really work, have an impact on whole school learning, and help every pupil reach their potential.

With the new developments across all secondary curriculum areas, there is greater emphasis on building depth of subject knowledge; stretching and challenging students of all abilities is essential to achieving this deep level of learning. 100 Ideas for Secondary Teachers: Stretch and Challenge presents innovative and exciting ideas, techniques and activities to embed stretch and challenge strategies into everyday classroom practice, regardless of subject area. Developing good stretch and challenge practices enables the cognitive process that helps learners retain new information more easily and work more productively. Looking at questioning, marking and feedback, starters, plenaries and technology-based teaching, Paul Wright explains why the strategies presented in this book are so effective. 100 Ideas for Secondary Teachers: Stretch and Challenge is the must-have guide to implementing stretch and challenge practices in the classroom with ideas designed to raise attainment for all students and keep them engaged in the classroom. Accompanying online resources are also available to download from a companion website.

100 Ideas: QUICK - EASY - INSPIRED - OUTSTANDING How do you teach a subject that has no 'right' answers? Philosophical and ethical concepts can be overwhelming to students who have not encountered them before, and complex arguments can be difficult to navigate. John L. Taylor's brand new book will help you to engage your class and have them reading, writing, talking and thinking philosophically. Starting with introductory ideas such as 'a guided tour of philosophy land', the book moves on to: ideas for stimulating and managing student discussions and debates; guidance for effective research; and methods to support students with their essays, presentations and projects. There are also tips for getting the best out of quieter students, and ideas for taking philosophy beyond the classroom. Hashtags and websites providing resources to enliven your classes are included throughout the book.

Are your students really engaged in your teaching? Teachers everywhere are looking for quick and easy ways to liven up their lessons, try something new and exciting, or just tweak a strategy or practice that they have been doing for years. This is a 'recipe style' books that you can dip in and out of when you are looking for inspiration. 100 Ideas for Secondary Teachers: Engaging Learners contains techniques and activities to apply to every area of classroom teaching, from livening up displays to using technology effectively, and even includes advice on greeting students and providing motivational feedback. Put these ideas into practice to get your class engaged and ready to learn.
