24 hours a day, seven days a week, 365 days a year, the National Domestic Violence Hotline provides essential tools and support to help survivors of domestic violence so they can live their lives free of abuse.

This report is part of WHO's response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials.

Violence in Gay and Lesbian Domestic Partnerships provides a comprehensive analysis of same-sex domestic violence, addressing the major theoretical and treatment issues for both its victims and perpetrators. Its contents raise awareness among social service providers, of the problem of same-sex domestic violence and emphasize the need for special services for both victims and perpetrators. The publication of Violence in Gay and Lesbian Domestic Partnerships signifies the growing official recognition of domestic violence within lesbian and gay relationships as a social problem worthy of serious attention and intervention. Editors Renzetti and Miley begin by providing readers with an overview of the problem of same-sex domestic violence and the responses of the domestic violence movement and other social service providers. Chapters then move to discussions of the current scarcity of services available to lesbian and gay victims and perpetrators of domestic violence and then evaluate specific treatment modalities for these client groups. Significantly, the special needs of lesbians and gays of color and those with HIV/AIDS are discussed. Chapters contain: an historical overview of the study of same-sex domestic violence a review and evaluation of theoretical explanations of same-sex domestic violence an analysis of major problems in service provisions to gay and lesbian victims of domestic violence suggestions for and evaluations of specific treatment modalities an analysis of how racism intersects with homophobia to exacerbate the consequences of domestic violence an analysis of the role of HIV/AIDS in same-sex domestic violence Contributors to this volume were actively addressing the problem of same-sex domestic violence before it was officially "discovered." Some were motivated by their experiences as victims and survivors of same-sex domestic violence, others by their concern about domestic violence in general. As a compilation of the writings of academics, clinicians, advocates, and activists, Violence in Gay and Lesbian Domestic Partnerships bridges disciplinary and occupational boundaries and promotes a dialogue across fields and specialties. Violence in Gay and Lesbian Domestic Partnerships is unique in that it is the only book available which comprehensively addresses the social service needs of gay and lesbian domestic violence victims and perpetrators. Specific suggestions are offered for improving service providers' responses to gay and lesbian victims of domestic violence. Social workers, counselors, practitioners and clinicians will find it especially useful, given that it addresses the effectiveness of particular treatment modalities for lesbian and gay victims and perpetrators.

The Adoption and Safe Families Act (ASFA), which became law in 1997, elicited a major shift in federal policy and thinking toward child welfare, emphasizing children's safety, permanency, and well-being over preserving their biological ties at all costs. The first edition of this volume was the earliest major social work textbook to map the field of child welfare after ASFA's passage, detailing the practices, policies, programs, and research affected by the legislation's new attitude toward care. This second edition highlights the continuously changing child welfare climate in the U.S., including content on the Fostering Connections Act of 2008. Gerald P. Mallon and Peg McCartt Hess have updated the text throughout, drawing from real world case examples, using data obtained from the national Child and Family Services Reviews and emerging empirically based practices. They have also added chapters addressing child welfare workforce issues, supervision, and research and evaluation. Divided into four sections:child and adolescent well-being, child and adolescent safety, permanency for children and adolescents, and systemic issues within services, policies, and programs:this newly edited volume provides a current understanding of family support and child protective services, risk assessment, substance and sexual abuse issues, domestic violence issues, guardianship, reunification, kinship and foster family care, adoption, and transitional living programs. Recognized scholars, practitioners, and policy makers also discuss meaningful engagement with families, particularly Latino families; health care for children and youth, including mental health care; effective practices with LGBT youth and their families; placement stability; foster parent recruitment and retention; and the challenges of working with immigrant children, youth, and families.

Dear Sister, It wasn't your fault; it was never your fault. You did nothing wrong. Hold this tight to your heart: it wasn't your fault. At night when you lay there and your mind fills with images and you wonder if only, if you had . . . if you hadn't . . . . Remember: it wasn't your fault. Dear Sister highlights the lessons, memories, and vision of over forty artists, activists, mothers, writers, and students who share a common bond: they are survivors of sexual violence. Written in an epistolary format, this multi-generational, multi-ethnic collection of letters and essays is a moving journey into the hearts and minds of the survivors of rape, incest, and other forms of sexual violence, written directly to and for other survivors. Dear Sister goes far beyond traditional books about healing, which often use "experts" to explain the experience of survivors for the rest of the world. Where other books about rape weave the voices of feminists and activists together and imagine what a world without violence might look like, Dear Sister describes the reality of what the world looks like through the eyes of a survivor. From a professor in the Midwest to a poet in Belgium, an escapee from a child prostitution ring, a survivor advocate in the Congo, and a sex worker in San Francisco, Dear Sister touches on issues of feminism, love, disability, gender, justice, identity, and spirituality. The Practice of Evaluation: Partnership Approaches for Community Change provides foundational content on evaluation concepts, approaches, and methods, with an emphasis on the use of evaluation and partnership approaches to effect change. Real examples in every chapter illustrate key ideas and concepts "in action" on topics such as organizational development, capacity building, program improvement, and advocacy. Editors Ryan P. Kilmer and James R. Cook, and the chapter authors, highlight pragmatic approaches to evaluation that balance the needs of stakeholders in an ethical way, to provide useful, usable, and actionable guidance for program improvement.
