Revolution will completely transform how the world thinks about retail and digital innovation. But is the world ready yet? In this book, the authors share an insider's perspective on what is happening in China to reveal the future for global retail, and a clear framework to help you prepare. The book presents a number of real-world cases, based on interviews and first-hand consumer experience, to decode China's retail revolution so that you can understand what is happening and why, and what it means for the rest of the world. Crucially, the book identifies five

presentation of a leading evaluation approach, this book describes the CIPP (Context, Input, Process, and Product) Model's origin, concepts, and procedures. Unlike many models, CIPP provides for feedback throughout a program. Richly illustrated with evaluation cases, the book covers methods for engaging stakeholders; designing, budgeting, and contracting evaluations; collecting, analyzing, and reporting information; and conducting metaevaluations. User-friendly features include 26 reproducible checklists and forms and references to relevant computer programs.
