The YJ was the

the mid-1980s,  
and it was aimed  
at taming the

and, arguably, a  
larger audience.  
The TJ that  
followed next  
was an  
evolutionary  
update,

significant in  
that it featured  
a coil spring

the YJ. In Jeep

When considering

*Page 72/103*

Acces PDF 3306

how well modern cars perform in many areas, it is easy to forget some of the issues motorists had on a regular basis 40+ years ago. Cars needed maintenance regularly: plugs and points had to be replaced

Acces PDF 3306

Cat Dita Gp4

on a frequent  
basis, the  
expected engine  
life was 100,000  
miles rather  
than double and  
triple the  
expectation that  
you see today,  
and an everyday  
hassle,  
especially in  
warm climates,  
was being the

Acces PDF 3306

Cat Dita Gp4

victim of an  
overheating car.

It was not  
uncommon on a  
hot day to see  
cars stuck in  
traffic, spewing  
coolant onto the  
ground with the  
hoods up in a  
desperate  
attempt to cool  
off. Fast-  
forward to

Acces PDF 3306

Cat Dita Gp4

today, and it's  
easy to forget  
that modern cars  
even have  
coolant. The  
temp needle  
moves to where  
it is supposed  
to be and never  
moves again  
until you shut  
the car off. For  
drivers of  
vintage cars,

this level of
