$M+T=20$  or  $T=20-M$  (Subtracting M from both sides) plug that in for T to the second equation.  $(11)M + (3)(20-M) = 100$  now distribute the 3.  $(11)M + 60 - 3M = 100$  now solve for M  $11M - 3M = 100 - 60$   $8M=40$   $M=5$ . So you have 5 Multiple Choice question. Put that in for M into  $T+M=20$  and solve for T.  $T+5=20$  or  $T=20-5$  so  $T= 15$  T/F questions..

This is a new content planner designed exclusively for teachers, examiners and education content creators. Create and build a bank of your own unique questions for your own resources and practice papers. Design and record questions focused towards the needs of your students. Create and compile questions for a multiple choice question test. Keep this planner with you and write in your ideas as soon as you have them to review later. In this book you will find 100 pages of templates for writing multiple choice practice questions. There are 60 half page multiple choice questions pages, with two templates per page making room for 120 questions. You can create up to four answers per question. After this, there are 40 full page multiple choice questions pages, allowing for longer questions and up to ten answers per question. Each planning template contains space to write your question and allocate marks. Need a picture? There is a blank sketch area in each template for drawings and graphs There is a place to allocate a question number, the paper it will be included in, the qualification it is relevant for and a space to identify the relevant learning objection being assessed. Is there a particular question you have seen in a textbook, published paper or online that you would like to reference or model? No problem! At the top section of each template you can note the location of an inspiration or reference question. There is a place for additional notes. Each multiple choice template contains the following: - Space to write your question - A blank sketch area - 4 or 10 multiple choice answer boxes

"Written in the form of a standardized test, Multiple Choice invites the reader to respond to virtuoso language exercises and short narrative passages through multiple-choice questions that are thought-provoking, usually unanswerable, and often absurd. It offers a new kind of reading experience, one in which the reader participates directly in the creation of meaning, and the nature of storytelling itself is called into question"--

ITAMOrg® IT Hardware Asset Management Certifications is suitable for individuals wanting to demonstrate they have achieved sufficient understanding of how to apply and tailor the Hardware Asset Management practices. Hardware Asset Management (HAM) is important for every organization. Management and control of hardware influences the risk on most asset types such as Software, Cloud & Services and People and Information assets. E.g., if you are not in control of what hardware is in use it is not possible for you to control your software which will result in software license in-compliance and other risks. The Hardware Asset Management Specialist Certification brings participants IT Service Management best practices together with Hardware Asset Management best practices. This will help an organization to implement Hardware Asset Management lifecycle processes and showing how IT Service Management can support HAM lifecycles to be in control and support the other Asset types. The purpose of the ITAMOrg Hardware Asset Management Specialist (HAMS) course and certification is to provide knowledge on best practices and use of Hardware Asset Management (HAM) in the challenges that Hardware Asset Managers face on a daily basis. This certification is based on a practical approach to strengthen the participants understanding of how ISO 55000 and IT Service Management best practice relates to everyday use of HAM, Hardware standards, Hardware lifecycle control, control of retirement and disposal and organizational issues that saturates many businesses in today's digital world.
