A Great and Terrible Beauty
A Great & Terrible King is a highly informative and often interesting account of Edward I. However, the author seems incapable of critically viewing his subject. Virtually every one of Edward's deeds is presented in the most complimentary manner—accomplishments are amplified and reprehensible acts are explained away.

A Great and Terrible King: Edward I and the Forging of ...

"Enhanced with color and b&w photos, a list of abbreviations, chapter notes, a bibliography, Family Trees, and a comprehensive index, A Great And Terrible King is an extraordinary read and highly recommended for both community and academic library collections."

A Great and Terrible King: Edward I and the Forging of ...

While 'Braveheart' indelibly made Edward ("Longshanks") look like Patrick McGoochan in my imagination, the scope of A Great and Terrible King is much more, as well as more thorough and remains consistently interesting. It was inspiring enough to make me look around for other authors covering the same time period with less success than I hoped..

A Great and Terrible King. For almost a fortnight Edward's death remained a closely guarded secret. According to Walter of Guisborough, anyone who spoke of it during this time was imprisoned. Only three letters are known to have been dispatched the following day: one to the queen, one to the earl of Lincoln and one to the prince of Wales.

A Great and Terrible King - A Great and Terrible King audiobook, by Marc Morris...
Edward I is familiar to millions as "Longshanks," conqueror of Scotland and nemesis of Sir William Wallace (in Braveheart). Yet this story forms only the final chapter of the king's action-packed life.

The first major biography of a truly formidable king, whose reign was one of the most dramatic and important of the entire Middle Ages, leading to war and conquest on an unprecedented scale. Edward I is familiar to millions as "Longshanks," conqueror of Scotland and nemesis of Sir William Wallace (in "Braveheart"). Yet this story forms only the final chapter of the king's action-packed life. Earlier, Edward had defeated and killed the famous Simon de Montfort in battle; travelled to the Holy Land; conquered Wales, extinguishing forever its native rulers and constructing a magnificent chain of castles. He raised the greatest armies of the Middle Ages and summoned the largest parliaments; notoriously, he expelled all the Jews from his kingdom.The longest-lived of England's medieval kings, he fathered fifteen children with his first wife, Eleanor of Castile, and, after her death, he erected the Eleanor Crosses—the grandest funeral monuments ever fashioned for an English monarch. In this book, Marc Morris examines afresh the forces that drove Edward throughout his relentless career: his character, his Christian faith, and his sense of England's destiny—a sense shaped in particular by the tales of the legendary King Arthur. He also explores the competing reasons that led Edward's opponents (including Robert Bruce) to resist him. The result is a sweeping story, immaculately researched yet compellingly told, and a vivid picture of medieval Britain at the moment when its future was decided.

This is the first major biography for a generation of a truly formidable king. Edward I is familiar to millions as 'Longshanks', conqueror of Scotland and nemesis of Sir William Wallace ('Braveheart'). Edward was born to rule England, but believed that it was his right to rule all of Britain. His reign was one of the most dramatic of the entire Middle Ages, leading to war and conquest on an unprecedented scale, and leaving a legacy of division that has lasted from his day to our own. In his astonishingly action-packed life, Edward defeated and killed the famous Simon de Montfort in battle; travelled across Europe to the Holy Land on crusade; conquered Wales, extinguishing forever its native rulers, and constructed - at Conwy, Harlech, Beaumaris and Caernarfon - the most magnificent chain of castles ever created. After the death of his first wife he erected the Eleanor Crosses - the grandest funeral monuments ever fashioned for an English monarch.

The first popular biography of Edward I in a generation by a major new historian.

King John is one of those historical characters who needs little in the way of introduction. If readers are not already familiar with him as the tyrant whose misgovernment gave rise to Magna Carta, we remember him as the villain in the stories of Robin Hood. Formidable and cunning, but also cruel, lecherous, treacherous and untrusting. Twelve years into his reign, John was regarded as a powerful king within the British Isles. But despite this immense early success, when he finally crosses to France to recover his lost empire, he meets with disaster. John returns home penniless to face a tide of criticism about his unjust rule. The result is Magna Carta – a ground-breaking document in posterity, but a worthless piece of parchment in 1215, since John had no intention of honoring it. Like all great tragedies, the world can only be put to rights by the tyrant's death. John finally obliges at Newark Castle in October 1216, dying of dysentery as a great gale howls up the valley of the Trent.

This riveting and authoritative USA Today and Wall Street Journal bestseller is "a much-needed, modern account of the Normans in England" (The Times, London). The Norman Conquest was the most significant military—and cultural—episode in English history. An invasion on a scale not seen since the days of the Romans, it was capped by one of the bloodiest and most decisive battles ever fought. Language, law, architecture, and even attitudes toward life itself—from the destruction of the ancient ruling class to the sudden introduction of castles and the massive rebuilding of every major church—were altered forever by the coming of the Normans. But why was this revolution so total? Reassessing original evidence, acclaimed historian and broadcaster Marc Morris goes beyond the familiar story of William the Conqueror, an upstart French duke who defeated the most powerful kingdom in Christendom. Morris explains why England was so vulnerable to attack; why the Normans possessed the military cutting edge though they were perceived as less sophisticated in some respects; and why William's hopes of a united Anglo-Norman realm unraveled, dashed by English rebellions, Viking invasions, and the insatiable demands of his fellow conquerors. Named one of the best books of the year by the Kansas City Star, who called the work "stunning in its action and drama," and the Providence Journal, who hailed it "meticulous and absorbing," this USA Today and Wall Street Journal bestseller is a tale of gripping drama, epic clashes, and seismic social change.

Edward I—one of the outstanding monarchs of the English Middle Ages—pioneered legal and parliamentary change in England, conquered Wales, and came close to conquering Scotland. A major player in European diplomacy and war, he acted as peacemaker during the 1280s but became involved in a bitter war with Philip IV a decade later. This book is the definitive account of a remarkable king and his long and significant reign. Widely praised when it was first published in 1988, it is now reissued with a new introduction and updated bibliographic guide. Praise for the earlier edition:"A mastery achievement. . . . A work of enduring value and one certain to remain the standard life for many years."—Times Literary Supplement "A fine book; learned, judicious, carefully thought out and skillfully presented. It is as near comprehensive as any single volume could be."—History Today "To have died more revered than any other English monarch was an outstanding achievement; and it is worthy commemorated by this outstanding addition to the . . . corpus of royal biographies."—Times Education Supplement

It's 1895, and after the death of her mother, 16-year-old Gemma Doyle is shipped off from the life she knows in India to Spence, a proper boarding school in England. Lonely, guilt-ridden, and prone to visions of the future that have an uncomfortable habit of coming true, Gemma's reception there is a chilly one. To make things worse, she's being followed by a mysterious young Indian man, a man sent to watch her. But why? What is her destiny? And what will her entanglement with Spence's most powerful girls - and their foray into the spiritual world - lead to?

"The definitive biography and assessment of the wily and formidable prince who unexpectedly became monarch-the most infamous king in British history. The reign of Richard III, the last Yorkist king and the final monarch of the Plantagenet dynasty, marked a turning point in British history. But despite his lasting legacy, Richard only ruled as king for the final two years of his life. While much attention has been given to his short reign, Michael Hicks explores the whole of Richard's fascinating life and traces the unfolding of his character and career from his early years as the son of a duke to his violent death at the battle of Bosworth. Hicks explores how Richard-villainized for his imprisonment and probable killing of the princes-applied his experience to overcome numerous setbacks and adversaries. Richard proves a complex, conflicted individual whose Machiavellian tact and strategic foresight won him a kingdom. He was a reformer who planned big changes, but lost the opportunity to fulfill them and to retain his crown."--Provided by publisher.

From the bestselling author of The Time Traveler's Guide to Medieval England, comes the story of King Edward III, who - like Elizabeth and Victoria after him - embodied the values of his age, forged a nation out of war and re-made England. He ordered his uncle to be beheaded; he usurped his father's throne; he started a war which lasted for more than a hundred years, and taxed his people more than any other previous king. Nineteenth century historians saw in Edward the opportunity to decry a warmonger, and painted him as a self-seeking, rapacious, tax-gathering conqueror. Yet, in this first full study of the King's character and life, Dr Ian Mortimer unveils that behind the strong warrior king was a compassionate, conscientious and often merciful man - resolute yet devoted to his wife, friends and family, and the father of both the English nation and the English people: 'A fascinating portrait. At times, the reader seems almost able to reach across time and touch this man' - The Economist

The remarkable and inspiring story of one of the greatest warrior-princes of the Middle Ages—and an unforgettablely vivid portrait of warfare and chivalry in the fourteen century. As a child he was given his own suit of armor; at the age of sixteen, he helped defeat the French at Crécy, At Poitiers, in 1356, his victory over King John II of France forced the French into a humiliating surrender that marked the zenith of England's dominance in the Hundred Years War. As lord of Aquitaine, he ruled a vast swathe of territory across the west and southwest of France, holding a magnificent court at Bordeaux that mesmerized the brave but unruly Gascon nobility and drew them like moths to the flame of his cause. He was Edward of Woodstock, eldest son of Edward III, and better known to posterity as "the Black Prince." His military achievements captured the imagination of Europe: heralds and chroniclers called him "the flower of all chivalry" and "the embodiment of all valor." But what was the true nature of the man behind the chivalric myth, and of the violent but pious world in which he lived? This exemplary new history uses contemporary chronicles plus a wide range of documentary material—including the Prince's own letters and those of his closest followers—to tell the tale of an authentic English hero and to paint a memorable portrait of society in the tumultuous fourteenth century.
