FINANCIAL STATEMENT FRAUD Strategies for Detection and Investigation Although financial statement fraud is the least frequently encountered fraud, it is by far the most costly, at a median loss of \$1 million per case. Yet, the indirect losses from financial statement fraud—jobs, support, morale, and loyalty—are also significant and almost impossible to measure. Learn how to spot the warning signs before the damage is done. Financial Statement Fraud explores the many different methods of perpetrating financial statement fraud, the accounting principles that are exploited, and the methods to detect and prevent fraud in any organization. Assuming an understanding of basic financial statements and the purpose each serves, as well as basic accounting concepts, author Gerard Zack highlights the many different types of fraud schemes. Financial Statement Fraud provides auditors, fraud investigators, government agencies, and investment analysts with detailed descriptions of the most common or emerging schemes involving the preparation and issuance of fraudulent financial statements. Filling the need for practical guidance on financial statement fraud and the roles and responsibilities within companies, Financial Statement Fraud features: References to pertinent U.S. and international accounting standards violated in the preparation of fraudulent financial statements A wide range of detection tools, from the simplest of ratios to complex analyses and tests, as well as fraud indicators A comprehensive, global approach that includes U.S. GAAP and IFRS Red flags and ratios to help you detect financial statement fraud schemes Coverage of auditor liability: when is an auditor liable for failing to detect fraud? Real-world cases that illustrate many of the fraud schemes featured throughout the book A companion website includes copies of SEC Accounting and Auditing Enforcement Releases (AAERs), complaints that were filed, and various other documents associated with most of the cases cited in the book. These documents provide all of the details associated with each case, enabling researchers to perform their own analysis to more fully understand the schemes and relate them to the detection tips provided in the book. Financial statement fraud can cost an organization more than just revenue. Arm yourself with the knowledge to identify where it happens, when to expect it, and how to detect it with the expert guidance found in Financial Statement Fraud.

The third edition of Loftus' Financial Reporting has been updated for recent developments in the Australian Accounting Standards, including the release of the new Conceptual Framework. This text is designed to be used across the 2nd and 3rd year financial accounting units. A hallmark feature of the text is that it provides both a conceptual understanding and a practical application of the accounting standards. For students, an understanding of the conceptual basis of accounting and the rationale behind the principles is crucial to the consistent application of standards in a variety of practical contexts. The Financial Reporting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos (from Ernst & Young), interactive worked problems and questions with immediate feedback. Loftus' unique resource can also form the basis of a blended learning solution for lecturers.

This book provides a clear outline of the key principles underlying property valuation and the current techniques and issues in the practice of valuation for the major sectors of the Australian real estate market. Formerly titled Valuation Principles and Practice, this entirely new third edition comprises Australia's leading advanced valuation textbook. The first part of the book, Principles of valuation, comprises chapters written by globally recognised academics and specialists on the principles of law, economics, planning, policy and finance, all in the context of property valuation. The second part of the book, Practice of valuation, comprises chapters written by acknowledged expert valuers on the practice of valuation for key property sectors including residential, retail, commercial, industrial, leisure and rural. Further, chapters also cover valuations for purposes including lending, insurance, rating, taxation and financial reporting. The most up to date valuation text for the Australian market, this book will appeal to both valuation practitioners and undergraduate/postgraduate students as well as

to accountants, lawyers and professionals dealing with property valuation issues.

Issues in Financial Accounting addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any Financial Accounting text on the market today, with its presentation of real-world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's (AASB) program of changes to make accounting standards equivalent to International Financial Reporting Standards.

"IFRS SYSTEM evolved out of Financial Reporting Specialists? (FRS, [www.frsgroup.com.au](http://www.frsgroup.com.au)) need for a superior automated financial reporting tool. In 2004 when FRS were looking for a tool that could assist them to prepare client's financial reports, they were unable to find one that did everything to the high standard required. They solved the problem by internally developing IFRS SYSTEM. Since 2004 IFRS SYSTEM has undergone extensive development and testing and it has been used successfully to prepare interim and annual financial reports for hundreds of clients. IFRS SYSTEM has now evolved into a ?commercially ready? application and in addition to its core financial reporting application, IFRS SYSTEM also offers other software, tools and books. IFRS SYSTEM products were marketed for the first time in 2010 and these products have quickly established themselves in leading accounting and auditing firms as well as large and small companies."--Publisher's website.

Structure and streamline your teaching. The third edition of this well-known resource aligns and maps to the Financial Services (FNS) Training Package in regard to core unit FNSACC504 Prepare financial reports for corporate entities. Mills prepares students to meet the assessment requirements of the training package, which are based on current accounting standards and the requirement to demonstrate a capacity for independent research. The text takes a concise and logical learning flow, with contents structured to provide clear pathways for teachers and self-paced learners. The improved pedagogy supports learners to develop an understanding of accounting standards, compliance, disclosure and treatment of taxation, and applying that knowledge to prepare financial reports. Help students to embed their learning through
