Part historical evocation, part travelogue, and part personal quest, *An Unexpected Light* is the account of Elliot's journey through Afghanistan, a country considered off-limits to travelers for twenty years.

Aware of the risks involved, but determined to explore what he could of the Afghan people and culture, Elliot leaves the relative security of Kabul. He travels by foot and on horseback, and hitches rides on trucks that eventually lead him into the snowbound mountains of the North toward Uzbekistan, the former battlefields of the Soviet army's "hidden war." Here the Afghan landscape kindles a recollection of the author's life ten years earlier, when he fought with the anti-Soviet mujaheddin resistance during the Soviet occupation of Afghanistan. Weaving different Afghan times and visits with revealing insights on matters ranging from antipersonnel mines to Sufism, Elliot has created a narrative mosaic of startling prose that

Five years in the writing by one of science fiction's most honored authors, *Doomsday Book* is a storytelling triumph. Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering and the indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras

in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history's darkest hours. Praise for Doomsday Book “A stunning novel that encompasses both suffering and hope. . . . The best work yet from one of science

Andrews spent the long summers of 1948 to 1951 traveling through the region and the winters writing in Athens.
