Its question-and-answer format speeds you to realistic strategies and solutions in seconds. Because the book is updated annually, you'll be sure to stay informed on newly enacted and pending legislation. For example, you'll get concise, jargon-free coverage of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), changes in the Medicare payroll tax, pharmacy benefit management, reduced reimbursements for physicians and hospitals, workers' compensation, Medigap policies, self-insurance, and third-party administration.

Did you know that our bodies can talk? They can say 'yes' and 'no'. Just like your inner voice sometimes warns or supports you, your body does this too by changing its muscle tension. This is the muscular system's reaction to stress, and means that if you are not comfortable with something, your body says 'no' and the length of your arms appears different. This clear and simple book shows you how to use this 'arm test' to access instant answers to absolutely anything from your subconscious. Using it will allow you to know what is best for you in any situation – helping you to maintain balance in all areas of your life, from relationships and health to money and career. And it only takes a few seconds to do, giving you clarity, insight, and peace of mind!

Written by students, for students, Instant Pharmacology represents a novel approach to the study of pharmacology and provides an accessible and exhaustive, yet concise account of pharmacology. The book first introduces readers to the basic principles of pharmacodynamics and pharmacokinetics, which are obviously essential for understanding the action of all drugs, and it is subsequently divided into four parts. \* Part One covers the main chemical transmitters which mediate all bodily processes and are the site of much pharmacological intervention. \* A systematic account of the pharmacological treatment of major clinical conditions is presented in Part Two, where emphasis is placed primarily on the principles upon which therapy is based, rather than overshadowing these principles with detailed features of individual drugs. \* Part Three comprises

a Dictionary of Drugs, alphabetically listing all the drugs encountered in Parts One and Two. Entries in the dictionary describe in detail the clinical uses, mechanisms of action, pharmacokinetics and the main adverse effects of a specific agent. \* Finally, to allow readers to evaluate their own progress in the subject, Part Four is a self assessment section, including multiple choice questions (with answers) covering all the topics in Instant Pharmacology. Instant Pharmacology will make the study of pharmacology a more rewarding and enjoyable process, and is essential reading for all undergraduate students of pharmacology, pharmacy and related courses, as well as preclinical medical and dental students.
