Thousands of years ago, Hippocrates said that all disease begins in the gut. Scientific research has proven this idea to be true. In *Healthy Gut, Healthy You*, clinician and researcher Dr. Michael Ruscio shows how modern lifestyle changes and the widespread use of antibiotics have made our guts more vulnerable than ever before.

technological development is revolutionizing medicine and health care, bringing new hopes to human suffering by offering cures and treatments which were unthinkable a few decades ago. This is where anti-ageing medicine finds its niche. Anti-ageing medicine aims at slowing, arresting, and reversing phenomena associated with ageing by merging biotechnological innovation and engineered solutions. Ideally, by means of the newest medical technology, the "body machinery" should be kept fit and at peak performance all life long. Early detection of age-related
