This volume deals with the values of the people in contemporary Europe. Using the survey data from the European Values Study, a number of basic values and the dynamics of value change are explored from an economic, political, social, and religious-moral point of view. Part 1 focuses on Europe's values from an empirical-analytical, and a historical point of view, and also presents the views of three eminent Europeans. Part 2 deals with in-depths analyses of European values, based on the empirical data set covering basic orientations in most of the domains of human life. Part 3 contains reflections on the empirical

findings, the value of value research, the hidden assumptions behind it, and the deeper layers of Europe's position and developments.

Traveling twenty miles in California can change everything around you, from the scenery to the weather, but it's easier to do that traveling when you can drive, and that driving starts with studying the California Driver's Handbook. California has the second-largest amount of roads in the entire United States, so being able to drive is often a rite of passage in many cities and necessary to get around. On this page, you'll find the latest version of the state handbook, pulled directly from the California DMV, which you can easily read, browse, and search using the controls on the
