Following a rapid four-month development period in which the device was modified to reach a US\$199 price point, mass production of the Nexus 7 started in May 2012. It was unveiled at Google I/O, Google's annual developer conference, on June 27, 2012, and became available for pre-order through Google Play on the same day. Shipping commenced in mid-July to Australia, Canada, the United States, and the United Kingdom, and releases in France, Germany, and Spain followed in August.
