of Christian humanistic studies in Spain. As a diocesan priest in Andalusia, he labored as a preacher, confessor, spiritual director, catechist, evangelist, educator, and theologian. He knew and helped many saints including Ignatius of Loyola, Teresa of Avila, and John of God. Master Avila, as he was called, centered his efforts on the establishment of colleges and universities for the education of laity and priests and on reform of the priesthood. He also directed many religious and lay people. His spiritual masterpiece, the Audi, filia, is a guide to the spiritual life in which hearing the word of God in the Scriptures and contemplating the face of Christ, especially in his passion, leads to personal transformation in the communion of the Father and the Son. In many ways the book reflects the time in which it was written, but it also transcends it to provide direction for a faithful and mature Christian life in any age.
