Manufacturers recommend that a car should be serviced every 12,000 miles or every 12months, whichever comes first. Some cars feature a self-diagnostic system, which will advise when a car service is due. Drivers are advised not to ignore these warning signs even if they occur before 12 months or 12,000 miles has been reached.

As today's cars continue to become more complicated and complex, the cost to repair them has continued to climb. However, with some basic knowledge and a little know-how, many of the most expensive repairs can be avoided by simple, regular maintenance, or relatively inexpensive repairs that can be done with a few tools and step-by-step instructions. Car expert, Dave Stribling, has seen every repair in the book, and in *Idiot's Guides: Auto Repair and Maintenance*, he arms readers with the knowledge they'll need to troubleshoot and diagnose common problems and make simple repairs that are universal to most makes and models. Dozens of step-by-step, full-color photos and illustrations make DIY car repairs and maintenance so much easier. When the repair calls for an expert the time comes to take the car to the shop, Dave arms readers with the knowledge they'll need to make the right choices, to avoid unnecessary repairs, and to minimize the possibility of getting ripped off.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as *Auto Repair For Dummies, 2nd Edition* (9780764599026). While this version features a new *Dummies* cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the *Los Angeles Times* and has been interviewed on the *Today* show, *NBC Nightly News*, and other television programs.

The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 (margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial)
