Case studies provide their approaches to teaching this course, and this text includes elements of business financial theory, along with practical institutional material that distinguishes financial businesses from non-financial ones. Practical Content The authors use end of chapter problems and case exercises to show students that the course goes beyond computation to require analysis and critical thinking skills. Flexibility in Level of Presentation Chapters progress from patient introductions of fundamentals to more challenging applications and then to appendices that contain advanced and often rigorous concepts and applications.

Cases narrative and cases, the authors skilfully examine the development of strategy, organizational capabilities, and management roles and responsibilities for operating in the global economy. The key concepts are developed in eight chapters that are supplemented by carefully selected practical case studies from world-leading case writers. All chapters have been revised and updated for this eighth edition to reflect the latest thinking in transnational management while retaining the book's strong integrated conceptual framework. Ten new cases have been added, and four others updated. A full range of online support materials are available, including detailed case
