threatening all she

a diagnosis, is finally

A daughter's tender and frank account of growing up with a closeted gay father whose double life

“Reading *Scratched*

standing very close to

what it means to be a

explores the ferocious
desire for perfection

which has shaped her writing life as well as her rich, dramatic, and constantly surprising personal life. *Scratched* is an intimate account of the uses a child, and the adult she becomes, will find for perfectionism and the role it will play in every part of her life. Elizabeth Tallent's

suburban

when her mother
refuses to hold her
newborn daughter,
shocking behavior
that baffles the
nurses. Imagining her
own mother's
perfectionist ideal at
this critical moment,
Elizabeth moves back

and forth in time,
juxtaposing moments
in the past with the
present in this
innovative and
spellbinding narrative.
Elizabeth traces her
journey from her early
years in which she
perceived herself as
“the child whose
flaws let disaster into
an otherwise perfect
family,” to her

adulthood, when perfectionism came to affect everything. In the decade between 27 and 37, she publishes five literary books with Knopf and her short stories appear in *The New Yorker*. But this extraordinary start to her career is followed by twenty-two years of silence. She wrote,

or rather published,
nothing at all. Why?
Scratched is the
remarkable response
to that question.
Elizabeth's early
publications secure
her a coveted
teaching job at
Stanford University.
As she toggles
between Palo Alto
and the Mendocino
coast where she lives,

raises her son

Gabriel, and pursues
an important

Elizabeth grapples
with the perfectionism
that has always been
home to her.

Eventually, she finds
love and acceptance
in the most unlikely
place, and finally
accepts an “as is”
relationship with

herself and others.

Her final triumph is the writing of this memoir, filled with wit, humor, and heart, and unlike any other you will read. *Scatched* is a brave book that repeatedly searches for the emotional truth beneath the conventional surface of existence.
