Emma Seaton was comfortably if unexcitingly engaged to Victor Harrison; he was a wealthy business tycoon, and Emma could look forward to a life of ease and luxury with him—but was that all she wanted from life? She became even more aware of her doubts about Victor when she met the disturbing Miguel Salvaje, who made no secret of his attraction to her, and Emma soon admitted to herself that she in turn was attracted to him. The situation grew even more intense when Miguel virtually blackmailed her into marrying him instead of Victor and bore her off to his home in Mexico. The tense situation between them might have resolved itself happily, however, had Emma not discovered that she was expected to share her home with a third

Advanced techniques for utilizing the universal healing connections revealed by Taoist astrology and astronomy • Provides meditations and healing techniques based on Taoist astrology • Allows readers to develop a personal practice based on an understanding of their planetary strengths and weaknesses • Includes Taoist star practices for expanding personal awareness into a cosmic field of chi that will support others in their efforts to heal and grow spiritually Taoist Astral Healing provides a step-by-step program for refining our ability to cultivate, circulate, and retain chi from the stars and planets. While the initial focus of Taoism centers on creating physical health that is deeply rooted in the energies provided by the earth, individuals may also draw down energies from the stars and planets to continue to grow in awareness and to develop their full soul potential. Harnessing these energies allows us to break through the cycles of attraction and addiction, promote longevity, and transform the physical and energy body into a “light body” in order to heal ourselves and others. Taoist Astral Healing teaches how to connect the body with the five elemental forces of nature, as well as

the moon, sun, planets, stars, and galaxies. Noting the relationships between specific constellations and points on the body--such as the Big Dipper's correspondence to the bones of the skull--the authors offer planetary and stellar meditations that allow the inner and outer universes to become more connected. Following the numerous meditations and techniques provided throughout the book, readers develop a personal practice based on an understanding of their planetary strengths and weaknesses and their own spiritual growth.

"Only boring people get bored Interesting people can always find something to be interested in." That's what Tom Trelawney's father says, anyway. Tom shouldn't have been interested in playing with matches but he was...bored. Now the shed is in ashes and strange Uncle Harvey is the only one willing to have him stay while his parents vacation. Tom soon discovers Harvey is going to South America on a treasure hunt and though nephews aren't invited, he manages to tag along. Before it's over he'll drive a car, fire a gun and run for his life. Tom realizes that life may be about following the rules, but survival may be about breaking them.
