2012 the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain, however, is that a rare galactic alignment will occur, one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya, who provide the most prominent predictions indicating this date will herald significant changes for humanity, he has studied the prophetic traditions of other cultures--including the Tibetan, Chinese, Jewish, Ethiopian, and tribal cultures from around the globe--to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many modern theories, including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles. Sifting through all the scientific research and speculation that the year 2012 has inspired, Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date.

The expanded companion book to the #1 documentary film about 2012! The 2012 meme has evolved beyond any debates about the relevance of the Maya Long Count calendar to the lives of contemporary human beings. 2012 is about us on planet Earth at this time. December 21,

2012: will the world really change forever on this date, the end of a 5,125-year calendar last used over a thousand years ago? Certainly Hollywood would like you to think so. Indeed, a not-so-small industry has arisen around the date, hawking everything from t-shirts to teleseminars. Clearing a path between fantasy and reality, Alexandra Bruce surveys the entire 2012 landscape, asking questions such as: Is the Earth losing its Mojo? How did 2012 come to mean "The End of Time"? Did psychedelics facilitate the Maya "Cosmovision"? Should we worry about Earth Crustal Displacement? What the hell is "Planet X"? Uniquely amongst a vast array of 2012 literature, this book features interviews with the leading experts—including Graham Hancock, John Major Jenkins, Daniel Pinchbeck and many others—and insightful, detailed analysis of the broad spectrum of opinion, debate, research and myth regarding the most compelling "end times" prediction of the 21st century.

What's going to happen on December 21, 2012? The winter solstice in 2012 is the end of the current Mayan calendar cycle. There are lots of theories about what will happen on this date. Will all life on Earth end? Will humans reach a higher spiritual plane? Will visitors from another planet arrive? Noted Mayan expert Mark Heley leads you through all the theories and debates surrounding this mysterious event. He takes a reasoned approach to the subject, relying on astronomy and climate changes, rather than myths and stories. This book features fascinating information, including: The Mayan cyclical view of time Modern interpretations of prophecies and predictions of rapid change Galactic alignment and Mayan theories on the origin of the universe Earth changes, the fall of civilizations, and apocalyptic theories You will learn about the possible cultural and social impacts of the predicted events. The author also shares his

depends on higher consciousness and raised vibration as well as the expanded awareness of a critical mass of people. As humanity enters the evolutionary transition from Homo sapiens to Homo luminous--from 3rd-dimensional human beings to 5th-dimensional beings of light--we are being called to fully participate in the dawn of a New World built upon unconditional love, co-support, cooperation, equality, unity, peace, justice, and sustainability. Sounding the clarion call for a global shift in consciousness starting at a personal level, Nicolya Christi presents a step-by-step guide to healing and transforming your inner world--an essential step toward co-creating a world shift as we head toward the tipping point of 2012. She offers core psychological insights and exercises, spiritual teachings, guided visualizations, and a concise overview of the spiritual and astronomical events surrounding 2012, as well as identifying the signs and symptoms of the 12 different stages of ascension, a process that millions are currently experiencing as we approach the global spiritual awakening of 2012. She explains how to clear past-life, ancestral, and current trauma imprints lodged within your energy field to accelerate the process of conscious evolution and ascension. Revealing that many people chose to reincarnate in this lifetime as "midwives" to help birth the New World, this book provides a way to rediscover your soul's higher purpose, thus serving your own evolutionary journey as well as that of the Earth.

This anthology offers wide-ranging views by various global experts about the end of the Mayan calendar in 2012, as well as related prophecies and associated physical changes of Earth's structure. The purpose of this collection is to broaden your perspective about such issues and concerns, so you can discern for yourself what your commitment to planetary life will be-and

then to demonstrate your commitment into being, beginning this very instant.

A guide to the science of prophecy, why so many predictions never come to pass, and the Golden Age ahead • Presents a mathematical means of divining the future, revealed in the Oahspe Bible, using the Egyptian Tables of Destiny, a 12,000-year-old system so exact it can foretell every day of the year • Reveals that we are not headed for Rapture and the Apocalypse but for “the Quickening,” the embryonic stage of a Utopian Age • Examines the cycles of history and explains why many prophecies have not come true Reviewing the cycles of history from biblical times to the present and prophecies of the future from Nostradamus to Edgar Cayce and Jeane Dixon, Susan B. Martinez reveals that our current “time of troubles” is not the beginning of Rapture, the Apocalypse, or Armageddon, but of the embryonic stage of a Utopian Age--the “Quickening” of the human race. Reviving the lost science of prophecy, Martinez explains why so many “great prophecies” have failed and presents the 12,000-year-old Egyptian system of prediction so exact it can foretell every day of the year, a method based not on the planets, astrology, or intuition but on Earth’s magnetic rhythms. Using Earth science, historical research, religious texts, spiritualism, and patterns within the cycles of war and political milestones, she demonstrates that the past is the hidden key to the future and uncovers the prophetic numbers of Earth’s cycles--11, 33, 99, and 363--as set forth in the Egyptian Tables of Destiny, ancient texts brought to light by the 19th-century Oahspe Bible. Explaining how readers can use the Tables of Destiny to make their own predictions of the future, she presents her own forecasts of the risks and costs of technological progress, the destiny of America, the up-and-coming global religion, the truth behind climate change and the

cause of earthquakes, and the true life expectancy of planet Earth as well as offering a preview of the Paradigm Shift and Golden Age ahead, a time of global unity and awakening of the soul of the world.

Identifying the Mayan World Tree with the central axis of the cosmos, the author shows how evolution is not random • Shows how the evolution of the universe emanates from the cosmic Tree of Life • Explains the origin and evolution of biological life and consciousness and how this is directed Using recent findings within cosmology, coupled with his broad understanding of the Mayan Calendar, biologist Carl Johan Calleman offers a revolutionary and fully developed alternative to Darwin's theory of biological evolution--and the theory of randomness that holds sway over modern science. He shows how the recently discovered central axis of the universe correlates with the Tree of Life of the ancients. This provides an entirely new context for physics in general and especially for the origin and evolution of life and suggests that we look upon ourselves as parts of a hierarchy of systems that are all interrelated and evolve in a synchronized way. Calleman's research demonstrates that life did not just accidentally "pop up" on our planet, but that Earth was a place specifically tagged for this. He demonstrates how the Mayan Calendar describes different quantum states of the Tree of Life and presents a new explanation for the origin and evolution of consciousness. Calleman uses his scientific background in biology and cosmology to show that the idea of the Purposeful Universe is real. He explains not only how DNA but also entire organisms have emerged in the

image of the Tree of Life, a theory that has wide-ranging consequences not only for medicine but also for the origin of sacred geometry and the human soul. With this new theory of biological evolution the divide between science and religion disappears.
