The Only Resource You Need for a Standout Season All basketball coaches can use some fresh ideas for practice drills, game plays and strategies. Whether you are coaching beginners who need a place to start, or a successful team that just needs polish, Basketball Drills, Plays, and Strategies is a resource you can trust to produce positive results on the court. With over 160 drills and plays, this book covers every aspect of your season. It will help you run efficient and effective practices and improve your game in live competition. Step-by-step instructions, accompanied by diagrams and illustrations walk you and your players through every step of the way. Areas of the game that are covered in detail include: Fundamental skills like dribbling, shooting, passing, and rebounding Offense and defense Inbound and tip-off plays Presses and press breaks Conditioning drills Because each drill and play includes adjustments to make things easier for beginners and more difficult for advanced players, you will be able to rely on this resource throughout your coaching career no matter what level you are working with. So don't let time run out—start preparing for your next season today!

Examines the history, rules, and strategy of basketball.

Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles is both a how-to book and a guide for how to plan strategy and tactics for basketball for an entire season or an individual game. Coaches often focus on X's and O's and overlook how and when a particular offense or defense should be applied and used during a game. Game Strategy and Tactics for Basketball: Preparing to Win the Sideline Battles serves as a planning guide and a master checklist for all the possible situations that a coach will face during a season. The book includes both traditional and some "out-of-the-box" strategies to the common situations that coaches face and provides both the pros and the cons of the approaches described. It is not the author's intention to tell each coach exactly what to do, but to serve as a guide in the decision making process. About the author: A 24 year veteran of the coaching profession, with twenty-two of those years spent as a varsity head coach, Coach Kevin Sivils amassed 464 wins and his teams earned berths in the state playoffs 19 out of 22 seasons with his teams advancing to the state semi-finals three times. An eight time Coach of the Year Award winner, Coach Sivils has traveled as far as the Central African Republic to conduct coaching clinics. Coach Sivils first coaching stint was as an assistant coach for his college alma mater, Greenville College, located in Greenville, Illinois. His teams were always known for their discipline, intense effort, execution of fundamentals, and team play. Coach Sivils is also the owner of KCS Basketball Enterprises, LLC, an enterprise focused on providing coaches with information to improve their knowledge of the game of basketball and their ability to coach. "If you have been looking for a rigorously thorough handbook on basketball tactics and strategy, you have found it!" Coach Doug Porter - Head Women's Coach, Olivet Nazarene University National Scoring leaders: 2005, 2006, 2007, 2008 Chicagoland Collegiate Athletic Conference Champions: 2000, 2005, 2007 "His thought provoking approach makes for an easy read and will definitely stimulate thought and, most likely, change the way you go about coaching!" Rusty Rogers - Two time NAIA Division II Women's National Championship Coach and Two time NAIA National Coach of the Year "Coach Sivils clearly brings his experience in the game of basketball to his writing. He is a great teacher who acquired great gifts over the years and it's great he wants to share those gifts with other coaches." Bill Reidy - Long time successful high school and AAU coach

Baseball, more than any other sport, inspires widespread research and publication. The literature of baseball is vast and continues to grow at a fantastic pace. Conversely, bibliographical control in this area has, until recently, seriously lagged. With over 57,000 entries, this massive three-volume set is the largest and most comprehensive non-electronic, non-database, print bibliography on any major American sport. This second edition brings the author's 1986 book up to date with the tremendous body of baseball literature published in the last 20 years. Represented here are books and monographs; scholarly papers; government documents; doctoral dissertations; masters' theses; poetry and fiction; novels; pro team yearbooks; college and professional All-Star Game and World Series programs; commercially produced yearbooks; and periodical and journal articles, including the first-ever complete analysis of the major diamond-oriented contents of ""Baseball Magazine"", ""Baseball Digest"", ""Sport"", ""Sports Illustrated"", and ""ESPN: The Magazine"", among others. Data includes biographical references to 3,904 major league players, and an appendix offers a full list of the 1,712 journals, periodicals and magazines cited. The work is fully indexed by subject and name. The book is published as a set of two volumes. Replacement volumes can be obtained individually under ISBN.

Before great basketball players developed their superstar flair, they built a solid base of fundamental skills in all phases of the game. Basketball Skills and Drills provides a blueprint for building the foundation that every well-rounded basketball player needs. The book also covers key team principles for both ends of the court. Tactics for offense, including special situations such as out-of-bounds plays, will improve spacing, ball and player movement, shot selection, and scoring. Defensive tactics emphasize positioning, pressure, and various systems to apply in each area or level of the court.

With this new handbook, coaches learn how to make the right call every time their basketball team has the ball. Each section contains a variety of sets and plays, all clearly explained and diagrammed.

Although higher education institutes are not typically thought of as a business, colleges and universities utilize marketing strategies in order to compete for students. Information and communication technologies have enhanced and changed the nature and context of communication exchange, allowing for a broader range of competition. Marketing Strategies for Higher Education Institutions: Technological Considerations and Practices provides different aspects of marketing management and technological innovations in all parts of education, including K-12, non-formal, and distance education. Highlighting research studies, experiences, and cases on educational marketing, this book is essential for educational planners, administrators, researchers, and marketing practitioners involved in all aspects of educational development.

The Mongoose System is not only a possible way to coach middle school and youth basketball, but the optimum way to coach at this level! This book has been written to teach you how to coach the System to middle school and youth basketball teams. Other books on the System have been organized for college and high school level teams, and we wanted to provide the lessons we have happily learned to you for your kids at the middle school level. We have written this book for you. You picked this book up because no matter how much you already know about basketball, you know there is more to learn. If you are a parent or teacher just starting out in coaching, you have picked this up to begin to learn to coach. If you have already coached for 5 years, you may be looking for a new approach to the game. If you have coached 10 years or more, you know that the more you know about the game, the more there is to learn.
