The final novel in the award-winning Finding Langston trilogy from Coretta Scott King Author Honoree and Scott O'Dell Award medalist Lesa Cline-Ransome. Clem can make anybody, even his grumpy older sisters, smile with his jokes. But when his family receives news that his father has died in the infamous Port Chicago disaster, everything begins to fall apart. Clem's mother is forced to work long, tough hours as a maid for a wealthy white family. Soon Clem can barely recognize his home--and himself. Can he live up to his father's legacy? In her award-winning trilogy, Lesa Cline-Ransome masterfully recreates mid-twentieth century America through the eyes of three boys: Langston, Lymon, and, now, Clem. Exploring the impact of the Great Migration, the Harlem Renaissance, Jim Crow laws, and much more,

Lesa's work manages at once to be both an intimate portrait of each boy and his family as well as a landscape of American history. A Junior Library Guild Gold Standard Selection Praise for Finding Langston, a Coretta Scott King Author Honor Book and winner of the Scott O'Dell Award for Historical Fiction "There aren't any explosions in this spare story. Nor is there a happy ending. Instead, Langston discovers something more enduring: solace."--The New York Times * "This crisply paced book is full of historical details of the Great Migration and the role a historic branch library played in preserving African American literary culture."--The Horn Book, Starred Review * "This is a story that will stay with readers long after they've finished it."--School Library Journal, Starred Review * "The impact on the reader could not be

The original classic touch and feel book that has been entertaining babies for over 60 years.

- New York Times bestseller
- The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What

We Think About When We Try Not To Think About Global Warming “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, Vox “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are

described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

From author of Wreck this Journal, Keri Smith's Finish this Book is a creative adventure where the reader is the main character - and the author. Dear Reader, One dark and stormy night, I found some strange scattered pages abandoned in a park... I collected and assembled them, trying to solve the mystery of this unexpected discovery, and I am now passing the task on to you. Your mission is to become the new author of this work. You will continue the research and provide the content. In order to complete the task, you will have to undergo some secret intelligence training, which I have included in this volume. Since no one knows what lies ahead, please proceed with caution, but know... This book does not exist without you. Yours truly, Keri Smith Bestselling
