A masterpiece of reporting on the Supreme Court's most divisive case, Roe v. Wade, and the unknown lives at its heart. Despite her famous pseudonym, no one knows the truth about Jane Roe. Norma McCorvey (1947/2017), whose unwanted pregnancy in 1970 opened a great fracture in American life. Journalist Joshua Prager spent years with Norma, discovered her personal papers, a previously unseen trove, and witnessed her final moments. With an explosive revelation at the core of the case, he tells her full story for the first time. Prager also traces Roe's fifty-year trajectory through three compelling figures: feminist lawyer Linda Coffee, who filed the original Texas lawsuit yet now lives in obscurity; Curtis Boyd, a former fundamentalist Christian, today a leading provider of third-trimester abortions; and Mildred Jefferson, the first Black female Harvard Medical School graduate, who became a pro-life leader with great secrets. Essential to our understanding of this key debate, the right to choose or the right to life, The Family Roe will change the way you think about our enduring American divide.

Since its inception An Introduction to Business Ethics, by Joseph Desjardins has been a cutting-edge resource for the business ethics course. DesJardin's unique approach encompasses all that an introductory business ethics course is, from a multidisciplinary perspective. It offers critical analysis and integrates the perspective of philosophy with management, law, economics, and public policy.

Ordinary abortion: common and clandestine -- Abortion storytelling: law, masterplots, and counter-narratives -- Abortion conversation: linguistics, politics, and law -- Abortion ethics I: whether -- Abortion ethics II: when -- Abortion politics: what are we really fighting about?

Simon had always expected love to feel different than this. Whether it was his Catholic upbringing or the poetry he'd read - Simon had thought that true love would be uplifting, fulfilling, that it would give a meaning to his loitering, and add joy to his leisure. But not this kind of love. This love was a flesh-eating monster, sharp-clawed and evil-eyed, ravishing his mind with medieval cruelty. Dr. Simon Mráz is a respected specialist and lecturer at the Charles University in Prague. He is a serious man, responsible. His students call him The Cruel Doctor Frost not because he's unkind, but because of his unwavering, ice-cold composure. As a psychiatrist, he values sanity. And sanity can be found in work, restraint, and self-control. Not many know of that one time in the past when The Cruel Doctor Frost lost his cool. His ill-advised, secret affair with a student left Simon deeply wounded. Since that day, every minute of Simon's life has been a struggle to remain sane, functioning. He's managed so far - as long as he is needed, as long as his work makes a difference, Simon can scrape together enough strength to get up in the morning and run off the nightmares. But when his friends begin drifting away, his beloved protégé becomes independent, and the man who bereaved Simon of his precious sanity might return... Simon's mind and body stop responding to his impressive willpower.

A riveting, incisive, and wide-ranging book about the Right to Die movement, and the doctors, patients, and activists at the heart of this increasingly urgent issue. More states and countries are passing right-to-die laws that allow the sick and suffering to end their lives at pre-planned moments, with the help of physicians. But even where these laws exist, they leave many people behind. The Inevitable moves beyond margins of the law to the people who are meticulously planning their final hours: far from medical offices, legislative chambers, hospital ethics committees, and polite conversation. It also shines a light on the people who help them: loved ones and, sometimes, clandestine groups on the Internet that together form the 'euthanasia underground.' Katie Engelhart, a veteran journalist, focuses on six people representing different aspects of the right to die debate. Two are doctors: a California physician who runs a boutique assisted death clinic and has written more lethal prescriptions than anyone else in the U.S.; an Australian named Philip Nitschke who lost his medical license for teaching people how to end their lives painlessly and peacefully at 'DIY Death' workshops. The other four chapters belong to people who said they wanted to die because they were suffering unbearably of old age, chronic illness, dementia, and mental anguish; and saw suicide as their only option. Spanning North America, Europe, and Australia, The Inevitable offers a deeply reported and fearless look at a morally tangled subject. It introduces readers to ordinary people who are fighting to find dignity and authenticity in the final hours of their lives.

This useful text offers a comprehensive understanding of ethics in accounting, as well as an examination of and recommendations for solving the current crisis in this field.
