Few people may realize that Long Island is still home to American Indians, the region ' s original inhabitants. One of the oldest reservations in the United States—the Poospatuck Reservation—is located in Suffolk County, the densely populated eastern extreme of the greater

New York area. The Unkechaug Indians, known also by the name of their reservation, are recognized by the State of New York but not by the federal government. This narrative account—written by a noted authority on the Algonquin peoples of Long Island—is the first comprehensive history of the Unkechaug Indians. Drawing on archaeological and documentary sources, John A. Strong traces the story of the Unkechaugs from their ancestral past, predating the arrival of Europeans, to the present day. He describes their first encounters with British settlers, who introduced to New England ' s indigenous peoples guns, blankets, cloth, metal tools, kettles, as well as disease and alcohol. Although granted a large reservation in perpetuity, the Unkechaugs were, like many Indian tribes, the victims of broken promises, and their landholdings

diminished from several thousand acres to fifty-five. Despite their losses, the Unkechaugs have persisted in maintaining their cultural traditions and autonomy by taking measures to boost their economy, preserve their language, strengthen their communal bonds, and defend themselves against legal challenges. In early histories of Long Island, the Unkechaugs figured only as a colorful backdrop to celebratory stories of British settlement. Strong ' s account, which includes extensive testimony from tribal members themselves, brings the Unkechaugs out of the shadows of history and establishes a permanent record of their struggle to survive as a distinct community.

valuable resource on Louisiana troops ' participation in the Civil War. Bartlett served throughout the war in Louisiana ' s elite Washington Artillery and fought in many battles in Virginia and the East. He later wrote an engaging account of his experiences, *A Soldier ' s Story of the War*, revealing a sensitive man ' s reaction to all that combat entails. This narrative constitutes a substantial portion of *Military Record of Louisiana*. The balance of the volume provides much detailed information and official data concerning Louisiana units in the Confederate Army, including muster rolls of the Orleans Guard, the Thirteenth Louisiana Regiment, the Washington Artillery, and Louisiana troops who fought in Virginia, the West, and the Trans-Mississippi. It also lists the casualties of various regiments (so far as was known then) and the cemeteries where they were buried, and

includes company journals and personal narratives of prominent Louisiana soldiers. Part memoir, part inventory, Military Record of Louisiana is a storehouse of information for scholars, students, and genealogists alike.

Colonialism and its legacies have emerged as one of the most important research topics in anthropology. Indeed, we now understand that colonialism gave rise to and shaped the discipline. However, the understanding of colonization in anthropology, history, and other fields derives largely from studies of European expansion. In this volume, ten archaeologists analyze the assumptions that have constrained previous studies of colonialism and demonstrate that colonization was common in early Old

and New World state societies--an important strategy by which people gained access to critical resources.

"A luxe, full color picture book adaptation of Sy Montgomery and Rebecca Green's New York Times bestselling How to Be a Good Creature"--

People have been retreating to the woods for quiet, meditation, and inspiration for centuries, and recent research finds that time spent in the forest doesn ' t just feel good but is, in fact, good for you. Inspired by the Japanese concept of shinrin-yoku, or forest bathing, poet Hannah Fries invites readers to bask in the company of trees, whether in a city park or a rural nature preserve. Fries combines her own reflections and guided mindfulness exercises with a curated selection of inspirational writing from poets,

naturalists, artists, scientists, and thinkers throughout the centuries and across cultures, including Japanese haiku masters, 19th century European Romantics, American Transcendentalists, and contemporary environmentalists. Accompanied by beautiful forest photography, Forest Bathing Retreat is a distinctive gift that invites frequent revisiting for fresh insights and inspiration. A steady and buoyant student buy-to-let market is one that still offers the potential of good returns. Here's why: the government intends to have 50 per cent of 18-30 year olds in higher education by the year 2010; UCAS, the University applications agency, has seen a year-by-year increase in applications; and there is massive student housing shortage and lack of investment in new housing by the universities. This book will help you to: find the initial investment - by identifying your attitude to risk and finding inventive ways of raising your initial investment; find the right lender -by creating a profile that is most suited to your personal circumstances and attitudes; find the right property -by identifying properties that can give you a significant return on your

investment; find the right tenant - by using credit checking, and managing the tenant and rent collection; minimise tax - by avoiding (but not evading) tax in connection with renting a property to students; and operate legally - by using the right contracts and covering the regulations governing residential letting property and the law in general. addresses, phone numbers and web sites that you should contact or visit in order to capitalise on the student rental market. In this book buy-to-let guru Ajay Ahuja applies the same formula that has taken him from an initial investment of GBP500 to a portfolio of over 100 properties worth over GBP6m in less than five years. He is regularly consulted for television and radio programmes, including Radio 4's Money Programme.
