2014 Best Texts of Missiology, from Byron Berger, Hearts and Minds Bookstore Mission--a driving force in the long Christian story--today is often cast as the embarrassing relative of tall-steeple religiosity. In our wider culture it's now tucked in the endnotes of book-club histories or forms the ghostlike ellipses in the six o'clock news. But in *Introducing Christian Mission Today*, Michael Goheen

brings the vibrant history, motivation and challenges of Christian mission to the fore. Through the centuries Christian mission has always been recalibrating, retooling and reevangelizing. It has repeatedly taken surprising turns as it is carried along by the Spirit of God. Goheen's introduction to mission's biblical, theological and historical dimensions engages the present and anticipates the future. As he unfolds the major issues of the global and urban, the pluralistic and wholistic contexts of mission today, he lays the ground for engaging in God's great kingdom enterprise. This full-scale text incorporates the keen missional insights of Lesslie Newbigin, David Bosch and other formative thinkers. It will be a valued resource not only for those in crosscultural contexts but also for those engaged in reevangelizing the West.

In this brilliant and tightly reasoned volume, well-known author Lesslie Newbigin analyzes the sources of truth and authority in the modern world. He acknowledges that modern society treats all claims to authority with suspicion. With what authority, then, can and does the Christian church present the gospel to modern society? Bible, tradition, reason, and experience are all used in answering this question, and this book seeks to examine their proper use and their relations to each other.

The 2014 Christianity Today Book Award of Merit Winner (Missions/Global Affairs) 2014 Outreach Magazine Resource of the Year ("Also Recommended," Global Outreach) The world has changed. A century ago, Christianity was still primarily centered in North America and Europe. By the dawn of the twenty-first century, Christianity had become a truly global faith, with Christians in Asia, Africa and Latin America outpacing those in the rest of the world. There are now more Christians in China than in all of Europe, more Pentecostals in Brazil than in the United States, and more Anglicans in Kenya than in Great Britain, Canada and the United States combined. Countries that were once destinations for western missionaries are now sending their own missionaries to North America. Given these changes, some think the day of the Western missionary is over. Some are wary that American mission efforts may perpetuate an imperialistic colonialism. Some say that global outreach is best left to indigenous leaders. Others simply feel that resources should be focused on the home front. Is there an

ongoing role for the North American church in global mission? Missions specialist Paul Borthwick brings an urgent report on how the Western church can best continue in global mission. He provides a current analysis of the state of the world and how Majority World leaders perceive North American Christians' place. Borthwick offers concrete advice for how Western Christians can be involved without being paternalistic or creating dependency. Using their human and material resources with wise and strategic stewardship, North Americans can join forces with the Majority World in new, interdependent ways to answer God's call to global involvement. In this critical age, the global body of Christ needs one another more than ever. Discover how the Western church can contribute to a new era of mission marked by mutuality, reciprocity and humility.

In this text, Paul E. Pierson, Dean Emeritus of the School of Intercultural Studies at Fuller Theological Seminary, guides the reader through a missiological view of history from Christ to the present. Pierson particularly highlights the contexts by which the biblical faith moved into new and different cultures. Today, the Christian faith, is the most geographically and culturally diverse worldwide movement that exists. Paul E. Pierson's book illuminates how this amazing fact has come about and how the trend will continue. Sign

The urgent question for Christian mission in North America today has to do with churches and congregations and the crisis of their identity in the culture of modernity. According to Alan J. Roxburgh, the church has shifted from the center of culture to the margins. This text examines this shift and explores Victor Turner's work on liminality (a term describing the transition process that accompanies a change of state or social position).

A deeper understanding of the grand history of mission leads to a faithful expression of God's mission today. From the beginning, God's mission has been carried out by people sent around the world. From Abraham to Jesus, the thread that weaves its way throughout Scripture is a God who sends his people across the world, proclaiming his kingdom. As the world has evolved, Christian mission continues to be a foundational tradition in the church. In this one-volume textbook, Edward Smither weaves together a comprehensive history of Christian mission, from the apostles to the modern church. In each era, he focuses on the people sent by God to the ends of the earth, while also describing the cultural context they encountered. Smither highlights

the continuity and development across thousands of years of global mission.
