clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

The Norton Commando is a motorcycle with an ohv pre-unit parallel-twin engine, produced by the Norton Motorcycle Company from 1967 until 1977. With over 700 colour photographs, this book provides step-by-step guides to restoring every component of this classic bike. Topics covered include how to find a worthy restoration project; setting up a workshop with key tools and equipment; dismantling the motorcycle to restore the chassis, engine cradle and swing arm; restoring the isolastic suspension, forks and steering; tackling the engine, transmission, carburettors, electrics, ignition and instruments and, finally, overhauling wheels and brakes, and replacing tyres. There is also a chapter on the assembly of a restored 'Five Times Machine of the Year' motorcycle.

The NASA Graphics Standards Manual is an introduction to NASA's then-new style guide, issued in January 1976 with an introduction by NASA Administrator Richard Truly. This is a full-color reproduction of a scan of the original Graphics Standard Manual. This is not the original format of the manual. Some pages were reformatted to fit. The original manual was in a ring-binder format.
