Commemoration in Ireland over the course of the following century. Although the Easter Rising and the Battle of the Somme were important historical events in their own right, their significance also lay in how they came to be understood as iconic moments in the emergence of Northern Ireland and the Irish Republic. Adopting an interdisciplinary approach drawing on history, politics, anthropology and cultural studies, this volume explores how the memory of these two foundational events has been constructed, mythologised and revised over the course of the past century. The aim is not merely to

Understand how the Rising and the Somme came to exert a central place in how the past is viewed in Ireland, but to explore wider questions about the relationship between history, commemoration and memory.

Hannover, Leicester, Madrid, Strasbourg and Utrecht. Its members focus on studying, researching and teaching employment law, labour law and social security law at national, European and international level. This book gives an overall picture of the industrial relations in Belgium. Therefore the footnotes are reduced to a minimum. This is compensated by concised bibliographies at the end of the chapters and a general bibliography at the end of the book. Whilst the prevailing orthodoxy of the expenditure retrenchment literature is that globalisation and neo-liberal ideas are leading to a downsizing of the state, empirical research - basing its conclusions on patterns of welfare state spending - does

not support such a view. This book brings a new perspective to bear by looking at what has been happening to other areas of the state's activity. Edited by Francis G. Castles, a leading authority in the field, and bringing together an outstanding group of British, German and American scholars, it examines trends in non-social or 'core' spending on public administration, defence, public order, education, economic affairs and debt financing and in the regulatory ordering of the economic sphere. The book not only opens up new areas of comparative public policy research, but also demonstrates

Clearly that there have been real reductions in the reach of state in some areas, although patterns of causation are more complex and varied than generally presumed by the retrenchment literature. The research findings reported in *The Disappearing State?* provide pivotal, relevant and challenging core material for advanced undergraduate and postgraduate courses in public and social policy, political economy and the sociology of the modern state.

Ever since 9/11, investigative reporter Peter Lance has been leading the fight to expose

the intelligence gaps that led to 9/11. Now, in the follow-up to his bestselling 1000 Years for Revenge, he returns with devastating new evidence that the government has been covering up its own counterterror failures since the mid-1990s -- and continues today. In Cover Up, Lance shows how the government chose again and again to sacrifice America's national security for personal motives and political convenience. In its first half, he unveils shattering new evidence that terror mastermind Ramzi Yousef ordered the bombing of TWA 800 from his prison cell in order to effect a mistrial in

his own terror bombing case. Astonishingly, the FBI was alerted to Yousef's plans in advance by a prison informant who even passed along his detailed sketch of a bomb-trigger device -- a document seen here for the first time. And Lance reveals the shocking reason the Justice Department suddenly ruled the crash an accident despite overwhelming evidence of the bombing -- throwing away its best chance to penetrate the cell that was already planning 9/11. And the outrage doesn't stop there. In Part II, Lance offers an unofficial "minority report" on the 9/11 Commission, critiquing it as the incomplete,

highly politicized "Warren Commission of our time." He explores potential conflicts of interest among its members, from the staff director who wrote a book with Condoleezza Rice, to the former Clinton deputy attorney general who participated in a critical meeting that upended the TWA probe. He exposes the report's false contention that the 9/11 plan was conceived in 1996, when the FBI had knowledge that the plot was in motion as early as 1994. And, in a heart-stopping, minute-by-minute chronicle of the attacks, he asks dozens of unanswered questions about the defense failures of that day -- from why

fighter jets weren't scrambled for almost an hour after the hijackings, to why the president and several of his top military advisers remained virtually incommunicado for more than half an hour after it was clear that America was under attack. At a time when America feels no safer than ever, Cover Up will lend new eyes to readers who want the full story behind the 9/11 attacks -- and inspire us all to keep demanding the truth.
