In this practical resource, pre- and in-service educational administrators get step-by-step guidance in every aspect of the curriculum development process--from the underlying principles and concepts to the roles of school personnel, the components of the process, technology in curriculum and instruction, and the most up-to-date curriculum issues. An all-new chapter on The Digital Classroom gives readers a look at how technology is changing the classroom environment and helps them understand the new trends that allow today's students to compete successfully in today's global workplace. Included are numerous references to both historic and contemporary works that provide readers with an excellent synthesis of the principles and practices used to create an effective curriculum.

Previous editions have Peter Oliva as only author.

The Eighth Edition of Contemporary Curriculum: In Thought and Action prepares readers to participate in the discussion of curriculum control and other matters important to K-12 and university educators. The text highlights major philosophies and principles, examines conflicting conceptions of curriculum, and provides the intellectual and technical tools educators and administrators need for constructing and implementing curriculum.

Bridging theory and practice, this text provides a comprehensive, in-depth overview of the three domains of supervision-instruction, curriculum, and staff development-and the related fields of administration and evaluation. The fifth edition examines current thinking, practices, and concerns and presents an unusually broad range of views as well as extensive documentation.

The eighth edition of Curriculum Planning is a selection of readings that presents the knowledge, skills, and alternative strategies needed by curriculum planners and teachers at all levels of education, from early childhood through adulthood. The book offers a variety of learning experiences for students with wide-ranging interests, learning styles, and backgrounds. Part I, "Bases for Curriculum Planning," emphasizes the development of knowledge and skills in the three bases of the curriculum - social forces, human development, and learning and learning styles. Part II, "Developing and Implementing the Curriculum," includes two new chapters: Chapter 5, "Developing the Curriculum," examines curriculum designs that can be used to develop (i.e., write) curricula. And, Chapter 6, "Curriculum and Instruction," focuses on the interrelationships between curriculum and instruction. Part III, "The Curriculum in Action," emphasizes the application of curriculum planning skills for educational programs for children; early, middle, and late adolescents; and adult learners. At each level, current trends, innovations, and issues are examined from both theoretical and practical viewpoints. The eighth edition includes 43 new articles, nine of which were written for this book, and two new chapters: Ch. 5 "Developing the Curriculum" and Ch. 6 "Curriculum and Instruction."

It also focuses on the specific sciences of nursing education and program evaluation as they pertain to nursing educators. New chapters address the role of faculty regarding curriculum development and approval processes in changing educational environments; course development strategies for applying learning theories, educational taxonomies, and team-building; needs assessment and the frame factors model; ADN and BSN and pathways to higher degrees; and planning for doctoral education. The fourth edition continues to provide the detailed knowledge and practical applications necessary for new and experienced faculty to participate in essential components of the academic role—instruction, curriculum, and evaluation. At its core, the text discusses the importance of needs assessment and evidence as a basis for revising or developing new programs and highlights requisite resources and political support. With a focus on interdisciplinary collaboration, the book addresses the growth of simulation, how to help new faculty transition into the academic role, and use of curriculum in both practice and academic settings. Additionally, the book describes the history and evolution of current nursing curricula and presents the theories, concepts, and tools necessary for curriculum development. Chapters include objectives, discussion points, learning activities, references, and a glossary. advancement of nursing education, and in particular, to the ongoing development of relevant yet dynamic nursing education curricula. This Second Edition offers current, accessible, and comprehensive tips and tools and incorporates a balance of theoretical perspectives and practical applications. The Second Edition has been completely revised and updated and includes an expanded focus on developing a context-relevant curriculum. A major determinant in any nursing education curriculum is the context in which the curriculum is developed and offered. This context is the professional, societal, health care, and educational situations to which the curriculum must respond, and is what makes each school ' s curriculum unique. Curriculum Development in Nursing Education helps nurse educators create a program of study that will meet the contextual needs of their individual setting. What ' s New: Expanded focus on developing a context-relevant curriculum New sections on educational technologies, distributed learning, and curriculum evaluation. New chapters on preparing for external program review, building a curriculum, and evaluation of a curriculum.
