Rice is life, for most people living in Asia. Rice has shaped the cultures, diets, and economies of thousands of millions of people. Growing, selling, and eating rice are integral to the culture of many countries. Products of the rice plant are used for a number of different purposes, such as fuel, thatching, industrial starch, and artwork. Rice is the staple food of more than half of the world's population - more than 3.5 billion people depend on rice for more than 20% of their daily calories. Asia accounts for 90% of global rice consumption, exceeding 100 kg per capita annually in many countries. Keeping in view the importance of rice, the United Nations declared 2004 as the International Year of Rice. Food security, which is the condition of having enough food to provide adequate nutrition for a healthy life, is a critical issue. Sustainable rice production is important for food self-sufficiency and food security in changing climates. Sustainable rice production practices are those which (1) increase rice productivity and its quality, (2) improve soil fertility and health, (3) increase water use efficiency

and conservation, and (4) increase diversification of rice fields, growers' income, and climate resilience.

Art Therapy Techniques and Applications contains an original composite of therapeutic goals and evocative ideas that can be used with a wide variety of clients. This book is filled with innovative suggestions and plans that are easily implemented: from brief warm-ups to stretch the imagination, and collage and mask creations to assist the expression of mood, to guidance on combining modalities such as art, metaphors and movement, mindfulness exercises, and using computer programs to enhance art therapy projects. Clear and concise, this is an indispensable reference guide for the therapist who wants to improve focus, develop problem-solving skills, and add creativity to their group work. This book will appeal to art therapists, art therapy students and professors, counselors, and social workers.

Best-selling author Rick Riordan presents best-selling author Roshani Chokshi and her sequel to Aru Shah and the End of Time. Aru is only just getting the hang of this whole Pandava thing when the Otherworld goes into full panic mode. The god of love's bow and arrow have gone missing, and the thief isn't playing Cupid. Instead, they're turning people into heartless fighting-machine zombies. If that weren't bad enough, somehow Aru gets framed as the thief. If she doesn't find the arrow by the next full moon, she'll be kicked out of the Otherworld. For good. But, for better or worse, she won't be going it alone. Along with her soul-sister, Mini, Aru will team up with Brynne, an ultra-strong girl who knows more than she lets on, and Aiden, the boy who lives across the street and is also hiding plenty of secrets. Together they'll battle demons, travel through a glittering and dangerous serpent realm, and discover that their enemy isn't at all who they expected.
