At least 1 in 6 men have experienced some form of sexual violence. The Bible and Sexual Violence Against Men argues that the shame and stigma around male sexual abuse are interwoven with contemporary social and cultural concepts of masculinity, and are also found in the ancient world and biblical texts themselves. This book is interdisciplinary and has three main areas of exploration: #MenToo? Exploring the myths around sexual violence against men Sexual violence against men in the Hebrew Bible Reading Jesus' enforced nudity at the crucifixion as sexual violence. Given the enduring importance of the Bible in contemporary society, this book explores the biblical texts that depict sexual violence against men. It examines critical approaches from theology, biblical, and religious studies perspectives, while also exploring insights from the fields of sociology, psychology, and criminology as well as referring to legal cases and legislation, charity work, and media-focussed articles. In seeking to serve a number of interested readers, including those who are not familiar with the Bible, short summaries of the biblical texts under discussion are given in each case.

(Guitar Recorded Versions). 33 songs matching the career-spanning CD release by this LA-based country/rock band presented in note-for-note guitar transcriptions with tablature. Songs include: Already Gone * Best of My Love * Desperado * Get over It * Heartache Tonight * Hotel California * I Can't Tell You Why * Life in the Fast Lane * Love Will Keep Us Alive * Lyin' Eyes * One of These Nights * Peaceful Easy Feeling * Take It Easy * Tequila Sunrise * Witchy Woman * and more.

This classic book will meet the needs of food and agricultural industries in both their research and business needs. Learn the fundamentals of applying statistics to the business and research needs in the food and agricultural industries. Statistical Methods for Food and Agriculture is a practical, hands-on resource that explores how statistics, a relatively recent development for science and business, facilitates the decision-making process. The range of techniques and applications explained and demonstrated in each of the four major sections of this volume provides a substantial course of study for those in business, government, and universities dealing with food, agriculture, and economics. Part I provides an introduction to the uses of statistics today, including basic concepts and definitions. Part II examines the statistical needs of the food researcher. The emphasis is on design of planned experiments, the analysis of data generated by planned experiments, and decision making in a research environment. Part III deals with statistical procedures that have a wide range of uses for the researcher and business analyst in both business and research situations. Part IV focuses on those statistical methods that have primarily a business application. This important volume is sufficiently detailed to enable the reader to learn and develop without outside assistance. References lead to more detailed presentations for those desiring additional specialized information, and helpful exercises at the end of each chapter permit the book's use as a textbook as well.

These guitar workshops are powerful learning tools that will help extend your stockpile of licks and fills and help develop your improvisational skills. Features play-along songs in standard notation and tab, and on the CD with and without guitar parts. Titles are: Hotel California * Life in the Fast Lane * One of These Nights * Tequila Sunrise * New Kid in Town * Lyin' Eyes * Take It Easy * Best of My Love.
