The title of this series of Latin books is Ecce Romani, which means "Look! The Romans!" The books in the series will present the Romans to you as you learn the Latin language that they spoke. At first you will meet the members of a Roman family; Latin is the language they use to communicate among themselves. As you continue reading you will meet mythological and historical characters that meant much to the Romans and remain part of our cultural heritage today. You will be introduced to a vast and colorful world of ancient Mediterranean and European civilizations that included peoples who spoke many different languages, and you will meet people of many different cultures and social levels, ranging from slaves to emperors. You will read passages from many ancient Roman writers and thus come into direct communication with the ancient Romans themselves. - Introduction.

The Study Books are designed to be used in conjunction with the core books of the Cambridge Latin Course. Student's Study Book II: Answer Key provides informative and comprehensive answers to the exercises in Student Study Book II. The Key will be of use to teachers, students and independent learners. Clearly structured answers are given for material which includes a rich variety of comprehension and translation exercises; activities to practise the language and grammar; vocabulary checklists; investigations into Roman civilisation and revision sessions.

Praised by teachers for many years, this format is now easier to manage. Passages are carefully controlled to use only vocabulary and syntax already taught and tested. Reading-skills instruction and translation help prepare students for second-year Latin. Twenty lessons formerly in Level I are now at the beginning of Level II, thereby providing better overall pacing.

Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical fireworks that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

This book contains over fifty passages of Latin from 200 BC to AD 900, each with translation and linguistic commentary. It is not intended as an elementary reader (though suitable for university courses), but as an illustrative history of Latin covering more than a millennium, with almost every century represented. Conventional histories cite constructions out of context, whereas this work gives a sense of the period, genre, stylistic aims and idiosyncrasies of specific passages. 'Informal' texts, particularly if they portray talk, reflect linguistic variety and change better than texts adhering to classicising norms. Some of the texts are recent discoveries or little known. Writing tablets are well represented, as are literary and technical texts down to the early medieval period, when striking changes appear. The commentaries identify innovations, discontinuities and phenomena of long duration. Readers will learn much about the diversity and development of Latin.

Lessons emphasizing vocabulary and sentence structure together with self-teaching exercises provide a challenging introduction to Latin

This textbook is endorsed by OCR and supports the specifications for AS and A-Level Classical Civilisation (first teaching September 2017). It covers all three options for Component 11: World of the Hero (Homer's Iliad, Homer's Odyssey and Virgil's Aeneid). Why does the Trojan War continue to fascinate us? What makes Odysseus a hero? What links can be drawn between the Aeneid and today's global politics? This book guides AS and A-Level students to a greater understanding of the epics of Homer and Virgil, setting the poems in their cultural context and drawing on the scholarship of leading academics to explore the poetry, characters and underlying philosophies. The colour illustrations, from the Cyclops on a Greek pot to a photograph of protesting Yazidi women, reflect the universal impact and continuing relevance of these classical epics. The ideal preparation for the final examinations, all content is presented by an expert and experienced teacher in a clear and accessible narrative. Ancient literary sources are described and analysed. Helpful student features include study questions, quotations from contemporary scholars, further reading, and boxes focusing in on key people, events and terms. Practice questions and exam guidance prepare students for assessment. A Companion Website is available at [www.bloomsbury.com/class-civ-as-a-level](http://www.bloomsbury.com/class-civ-as-a-level).
