with fundamental  
courses like financial  
and managerial  
accounting. It is only  
when students have a  
firm grasp of concepts  
like the accounting cycle  
and managerial decision  
making that they have a  
base on which to stand,  
a strong foundation on  
which to grow. In this  
edition, as before, the  
Williams team has

Here, contributors advocate what they term 'accounting for cooperation' as a more environmentally positive complement to the paradigmatic practice of 'accounting for competition'.

This work takes a real-world, single focus company approach in every chapter. The
