Aug 30, 2020 taxation of nonprofit organizations cases and materials university casebook series Posted By Karl MayPublic Library TEXT ID b8255af9 Online PDF Ebook Epub Library specialized jd or graduate level tax class every major topic is accompanied by a skillfully developed set of problems lively authors notes and questions and taxation of nonprofit organizations cases

The Fifth Edition of this pioneering casebook includes the usual rich mix of materials and is adaptable to a survey course, a policy-oriented seminar, or a more specialized J.D. or LL.M tax class. Every major topic is accompanied by a skillfully developed set of problems and includes lively notes, questions, and bibliographic references. Highlights of the Fifth Edition include: Coverage of all important developments since the last edition, including new state legislation and case law on nonprofit formation, governance, and donor standing; IRS scrutiny of colleges and universities, nonprofit executive compensation, and commercial activities; final tax regulations on the public charity support tests and supporting organizations; proposed regulations on the exemption requirements for hospitals and program-related investments; and recent antitrust litigation and other lawsuits challenging the NCAA's regulation of college athletes. Reorganized and updated coverage of the limitations on lobbying and political campaign activities of § 501(c)(3) charities; the use and abuse of noncharitable exempt organizations for political activities; and the implications of the Supreme Court's Citizens United decision on the nonprofit sector. Expanded discussion of the emerging forms of hybrid entities used for social enterprises that combine a public benefit mission with the pursuit of profit. A new and more contemporary introductory problem on the choices facing the founders of a nonprofit organization and revised problems on the state law duties of loyalty and care and the federal tax exemption standards for hospitals. A survey of proposed tax reform legislation affecting exempt organizations and the charitable deduction. Pruning of dated materials, minutia, and more tightly-edited cases, notes, and problems.

This casebook has been adapted from the authors' pioneering and widely used casebook, Nonprofit Organizations: Cases and Materials. Topics covered include organizational and operational requirements for tax-exempt status for charitable and mutual benefit organizations, private foundations, the unrelated business income tax, and the charitable contributions deduction. An introductory chapter provides valuable perspective and a concise overview of the nontax considerations affecting choice of legal form for a nonprofit organization. The Fourth Edition incorporates all important new legislative, judicial and administrative developments, including final regulations on the public charity support tests and supporting organizations; proposed regulations on the heightened exemption requirements for nonprofit hospitals and program-related investments; and the ongoing controversy over the use of nonprofit organizations for political campaign activity. Perfect for instructors seeking more intensive tax-focused coverage, this spin-off edition has been carefully customized for use in 2 or 3-unit J.D. and LL.M courses on taxation of the nonprofit sector. Each chapter contains a rich but manageable mix of materials, including well-edited cases, major rulings, policy excerpts, lively notes and questions, skillfully designed problems that raise policy, technical and planning issues, and bibliographic references.

You'll find this book to be an invaluable single source for the statutes and regulations relating to nonprofit organizations. Quickly and easily find the primary law you need in this comprehensive resource, conveniently sized to carry with you. Sample forms streamline document preparation; ensure completeness, accuracy, and proper terminology; and act as checklists.

This is the 2008 case supplement to Fishman and Schwarz's Taxation of Nonprofit Organizations, Cases and Materials, 2nd.

Law school casebook supplement to Fishman and Schwarz' Nonprofit Organizations Cases and Materials, 2d. Included are expertly edited cases issued since release of the casebook, class notes, and problems for class discussion.

This is the 2009 case supplement to Fishman and Schwarz's Taxation of Nonprofit Organizations, Cases and Materials, 2nd.

The economic importance of the non-profit sector is growing rapidly in the USA and Europe. However, the law has not kept abreast with its development. The European Court of Justice has extended certain freedoms of the EC Treaty to non-profit organisations, and more case law is expected to follow in the near future, but the observations, theories, solutions and legal and non-legal rules in this field are manifold. The chances of harmonising the law on a European level are slim. Despite these differences, a common core of international corporate governance problems and regulatory solutions can be seen. This volume of essays brings together a variety of international experts from both corporate governance and governance of non-profit organisations to compare the two areas and explore the lessons that can be learned regarding comparative corporate governance for non-profit organisations.
