The first is known as the sociology of language. This is the study of the effect that society has on language. The second is sociology or the study of the effect that language has on society. Although the two are considered fundamentally different, various field work and studies have demonstrated they are inseparable.

[An Introduction Sociolinguistics and its Importance in](#) . . .

Sociolinguistics is conceived here as a fundamental critical perspective on the whole of the study of language. The scientific problems within present linguistics, the book contends, combine with social problems of the society in which linguists participate to press linguistics to discover ethnographic foundations.

[Foundations in Sociolinguistics: An Ethnographic Approach](#) . . .

Sociolinguistics is the descriptive study of the effect of any and all aspects of society, including cultural norms, expectations, and context, on the way language is used, and society's effect on language. It differs from sociology of language, which focuses on the effect of language on society.Sociolinguistics overlaps considerably with pragmatics and is closely related to linguistic ...
