a reality. At one point or another in this book, you will experience several different reactions - excitement, curiosity, joy, laughter, or even tears - but the ultimate goal is to encourage and challenge you to make a decision to do the impossible. That may have a totally different meaning to you than it did to Steve Jobs, Thomas Edison, or any of the other role models we will look at; but whatever Doing the Impossible means to you, the goal of this book is to help you realize that you have the capacity to do what the critics think is impossible. - Patrick Bet-David, Introduction to Doing the Impossible. Doing the Impossible is a roadmap for those who want to do something big with their lives. The book goes over 25 steps that the reader should take to re-create themselves, identify their cause, and make history. Patrick Bet-David shares his own impossible crusade and gives key principles for anyone looking to do the same.

When we think of transformation, we automatically think of metamorphosis or change. One of the first metamorphoses we discover as a child is the universally quoted change of the caterpillar into the butterfly. The positive symbolism of this transformation is liberally applied to illustrate the change from "ugly duckling" to "elegant swan" in all fields. This symbolism readily transfers to just about any change for the better. The guidance of individuals who have experienced positive change with mentoring, have taken calculated risks, and enjoyed accomplishments in their field may be seen as role models. We also note that the transformations of the PremierExperts(r) in this book are not limited by "dollars and cents" measurement, but include body, mind and soul accomplishments. The transforming experiences discussed by the PremierExperts(r) in this book cover many subjects, including positive mindset changes, changes wrought by perseverance, passion, due diligence, restructuring, technology, systems, techniques, etc. In fact, they cover positive changes that cut across numerous disciplines and fields. So read on and TRANSFORM yourself for success!!! If you do not change direction, you may end up where you are heading. Lao

Privilege and Prejudice is a stereotype-defying autobiography. It reveals a Black man whose good fortune in birth and heritage and opportunity of time and place helped him to forge breakthroughs in four separate careers. Clifton R. Wharton Jr. entered Harvard at age 16. The first Black student accepted to the School of Advanced International Studies at Johns Hopkins, he went on to receive a doctorate in economics from the University of Chicago—another first. For twenty-two years he promoted agricultural development in Latin America and Southeast Asia, earning a post as chairman of the Rockefeller Foundation. He again pioneered higher education firsts as president of Michigan State University and chancellor of the sixty-four-campus State University of New York system. As chairman and CEO of TIAA-CREF, he was the first Black CEO of a Fortune 500 company. His commitment to excellence culminated in his appointment as deputy secretary of state during the Clinton administration. A remarkable story of persistence and courage, Privilege and Prejudice also documents the challenges of competing in a society where obstacles, negative expectations, and stereotypical thinking remained stubbornly in place. An absorbing and candid narrative, it describes a most unusual childhood, a remarkable family, and a historic career.

"We Need to Talk: A Memoir About Wealth gives voice to an experience millions share, but no one discusses: what it's like to be rich. The book is an honest,

personal story that explores the hidden impact of wealth on identity, relationships, and sense of place in the world. Too often, we link net-worth to self-worth and keep quiet about how our finances make us feel. Money is a taboo subject. The author hopes *We Need to Talk* becomes a catalyst for conversation that demystifies wealth, gets us talking on a personal level, and confirms we are ninety-nine percent the same. In 1991, at twenty-six years old, Jennifer took a job at Microsoft and got lucky. She met her future husband, David, and the stock options she was granted were worth hundreds of thousands of dollars. His were worth far more. Years later, when David joined a small, unknown start-up called Amazon.com, she got lucky again. They both did. They were in their early thirties and had tens of millions of dollars. It was amazing. The freedom and benefits were obvious. But after growing up saving her pennies and being wary of the rich, Jennifer was embarrassed to have joined their ranks. She wasn't worried about being liked for her money, she was worried about being hated for it. People looked at her differently. She didn't know how to ensure her children stayed motivated and not entitled, was shocked when a friend asked for \$25,000, discovered philanthropy isn't as straightforward as just writing a check, and grappled with the meaning of enough. For years, she didn't share her dilemmas with others for fear of being judged. No one talks about money-but we should"--

Your money has a voice in the heavenly realm. What is it speaking? For years, there has been talk of a "Great Transfer of Wealth" coming to God's people. In the midst of controversy and concern over the excesses of carnal prosperity teaching, the fact remains that believers need financial resources in order to fund the advancement of the Kingdom. For Christians to impact culture, they must understand the power of translating financial wealth into Kingdom influence. The problem? This level of wealth and influence continue to evade us, both personally and corporately. Why? It's time to renounce and revoke the enemy's legal rights in our finances, and release supernatural abundance from the Court of Heaven. Robert Henderson travels the globe, teaching the concepts from his bestselling *Courts of Heaven* series. When applied, these Kingdom truths help believers demolish barriers to breakthrough and step into divine destiny in every arena of life. In this timely new work, Henderson shows you how to enter this spiritual dimension and engage God as a Righteous Judge on behalf of your finances. You will discover how to: Remove legal rights the enemy is using to restrain financial increase in your life. Understand the economic system of Heaven: is God a socialist or capitalist? Revoke the spirit of poverty that wars against prosperity and blessing. Release the prophetic voice of your finances before the Court of Heaven. Operate in the Biblical principles of Firstfruits. Issue restraining orders against the devil and his agenda for your finances. Break free from "Disrupted timing" and realign with God's order of abundance. If you are experiencing financial hardship or sense an invisible "ceiling" that limits your current level of financial blessing, discover how to enter the Courts of Heaven and unlock the abundance that's reserved for God's people!

Change is a constant, and leaders must do more than keep up—they must innovate and accelerate to succeed. Yet people are often unnerved by change. As a leader during a time of transformation, you may stand up before teams that are indifferent, or even hostile, and need to convince them that change is necessary and urgent. More than money, time, or resources, the ability to lead these people

determines your ultimate success or failure. What does it take to be an effective change leader and increase the odds of success? *Stacking the Deck* offers a proven, practical approach for inspiring meaningful, lasting change across an organization. *Stacking the Deck* presents a nine-step course of action leaders can follow from the first realization that change is needed through all the steps of implementation, including assembling the right team of close advisors and getting the word out to the wider group. Based on Dave Pottruck's experiences leading change as CEO of Charles Schwab and later as chairman of CorpU and HighTower Advisors, these steps provide a guide to ensure that your change initiative and your team have the best possible shot at success. In addition, established business leaders who have led extraordinary change initiatives demonstrate the steps in action. These executives include eBay CEO John Donahoe, Wells Fargo former CEO Dick Kovacevich, Starbucks chief executive officer Howard Schultz, San Francisco Giants CEO Larry Baer, JetBlue CEO Dave Barger, Asurion CEO Steve Ellis, Pinkberry CEO Ron Graves, and Intel's President Renee James, among others. Leading an organization through major change—whether it's the introduction of a new product, an expansion to a new territory, or a difficult downsizing—is not for the faint of heart. While success is never guaranteed, the right leadership, process, and team make all the difference. For all leaders facing major change in their organizations, *Stacking the Deck* is an indispensable resource for putting the odds in your favor.
