Aims to provide the information needed to get good grades in the AQA Modular Science GCSE at Foundation level. This guide contains the content for the final six modules.

This GCSE Science Practice Papers pack covers AQA Final Modules Exams (bit mixed up here, Final Exam instead?) at Higher level. It includes three whole sets of papers in this handy pack, with an answer book containing full answers and a mark scheme to help anyone using the pack to keep track of their projected grade. This is a great self-testing resource that offers excellent value for money.

This brand new series consists of five textbooks, each with corresponding Teacher Support. GCSE Double Award is delivered by the Year 10 and 11 Higher texts. The Foundation Tier Double Award is delivered by the Year 10 and 11 Foundation texts. The Foundation and Higher texts can be used in parallel to cover a wide ability range.

In line with the new AQA Modular double award specification, the guide is designed to prepare students for their AQA Modular exams with plenty of exam practice for both end-of-module tests and terminal exams, and indicates the material students need to revise for their terminal exams.

This GCSE Science Practice Papers pack covers AQA Final Modules Exams (bit mixed up here, Final Exam instead?) at Higher level. It includes three whole sets of papers in this handy pack, with an answer book containing full answers and a mark scheme to help anyone using the pack to keep track of their projected grade. This is a great self-testing resource that offers excellent value for money.

The AQA Modular science series is matched to the AQA GCSE Modular specifications (dual and separate awards). It focuses on what students will need for their exams, not only in content but also in assessment type and structure. There are two separate science books in the series.

This series is designed to help students prepare effectively for their AQA Modular science exams. The Year 10 and Year 11 textbooks are available in both higher and foundation editions for students of a wide range of abilities.

Manage your own revision with step-by-step support from experienced teacher and examiner Steve Cushing. Use specific case studies to improve your knowledge of Computer Science. Apply terms accurately with the help of definitions and key words. -Plan and pace your revision with the revision planner -Use the expert tips to clarify key points -Avoid making typical mistakes with key expert advice -Test yourself with end-of-topic questions and answers and tick off each topic as you complete it -Get exam ready with last minute quick quizzes at www.hoddereducation.co.uk/myrevisionnotes

These full-colour Revision Guides provide board-specific support for GCSE Science and are designed specifically to raise standards.

The book provides extensive support for the students taking the new GCSE with AQA, with a strong emphasis throughout on 'How science works'. It focuses on real-life contexts, allowing students to understand that science is not always centred in a laboratory. The book aims to motivate and engage students with many up-to-date applications and ideas. This is a book based firmly in the 21st Century. The pages are packed full of activities to help students prepare for the new Investigative Skills Assignments, while continuing to provide plenty of questions for homework and practice for external exams. Higher-tier students will find plenty of material to apply their knowledge and to progress their skills in areas such as enquiry and data handling. When used with the Foundation Student's Book these two titles provide comprehensive differentiation in teaching AQA Core Science to students of all abilities. The authors include experienced examiners, successful writers and practising teachers.
