The phrase 'asylum-seeker' is one we see in the media all the time. It stimulates fierce and controversial debate, in arguments about migration, race and religion. The movement of people from poor or struggling countries to those where there may be opportunities for a better life is a constant in human history, but it is something with particular relevance in our own time. This collection of short stories shows us people who have been forced to leave their homes or families to seek help and shelter elsewhere. Some are about young people travelling to other countries, others are concerned with children left behind when parents are forced to flee. These are stories about physical and emotional suffering, but also about the humanity of some people from host countries who act with generosity and sympathy.

In 1944, at the height of World War II, 982 European refugees found a temporary haven at Fort Ontario in Oswego, New York. They were men, women, and children who had spent frightening years one step ahead of Nazi pursuers and death. They spoke nineteen different languages, and, while most of the refugees were Jewish, a number were Catholic, Greek Orthodox, and Protestant Christians. From the time they arrived at the Fort Ontario Emergency Refugee Shelter on August 5 they began re-creating their lives on the road to becoming American citizens. In the history of World War II and the Holocaust, this “token” save by President Franklin D. Roosevelt and the War Refugee Board was too little and too late for millions. But for those few who reached Oswego it was life changing. The Shelter and the Fence tells their stories.

From award winning memoirist, Niki Smart's second memoir, "Helter Shelter" is a big-hearted rollercoaster ride through chaotic dysfunction brought about by the author experiencing her own major crisis while working at a Crisis Intervention Shelter.

Questioning what shelter is and how we can define it, this volume brings together essays on different forms of refugee shelter, with a view to widening public understanding about the lives of forced migrants and developing theoretical understanding of this oft-neglected facet of the refugee experience. Drawing on a range of disciplines, including sociology, anthropology, law, architecture, and history, each of the chapters describes a particular shelter and uses this to open up theoretical reflections on the relationship between architecture, place, politics, design and displacement.

Examines how the humanitarian order advances a message of moral triumph and care while abandoning the dispossessed Prompted by a growing number of refugees and other displaced people, intersections of design and humanitarianism are proliferating. From the IKEA Foundation’s Better Shelter to Airbnb’s Open Homes program, the consumer economy has engaged the global refugee crisis with seemingly new tactics that normalize an institutionally sanctioned politics of evasion. Exploring “the global shelter imaginary,” this book charts the ways shelter functions as a form of rightless relief that expels recognition of the rights of the displaced and advances political paradoxes of displacement itself.

There are about 6,000 unaccompanied asylum-seeking and refugee children in the UK. These children have survived conflict, persecution and the consequences of these - trauma, injury, pain, loss and separation. The complex journeys they have undertaken, the risks endured and the uncertainty of what they may have experienced up to the point where the decision to leave was made. How should these children be welcomed? How should they be treated? What special factors apply? This Practice Guide addresses these questions and calls for local authorities to provide for these children.

Her students draw images of tragic violence and careful optimism: rafts and tanks, flowers and the Eiffel Tower. In her eight years in Germany, Ali Fitzgerald experiences the highs of the creatively hopeful, along with the deep depression of the disillusioned, all while waiting to stumble onto her own glory like the great Modernists before her. In the gigantic plastic bubble that is the refugee center, worlds collide and echo, and her drawings are compassionate and unflinchingly intimate, perfectly visualizing the fantasy of her Bohemia crumbling in a globalized city.
