This is a completely revised and expanded edition of Hair Transplant 360 for Assistants, Volume 2, edited by Emina Karamovski Vance from the Lam Institute for Hair Restoration in Plano, Texas. The book is divided into two parts: the first part, ' Core 360 ' , covers the basics of hair anatomy, growth cycles necessary for assisting hair restoration, male and female pattern baldness, non-surgical hair loss solutions, and the evolution of hair restoration procedures. Part one also features extensive sections on graft preparation and graft placement. The second part of the book, ' More 360 ' , covers patient care, from postoperative through short and long term follow-up. Part two features an assistant training section which includes standardised hair-transplant photography and stress management. This highly illustrated new edition also includes an expanded and updated DVD-ROM covering a wide range of topics, from surgery overview and preparation, to quality control, graft handling and placement, and a ' Test Your Knowledge ' section, making Hair Transplant 360 for Assistants, Volume 2 an ideal resource for hair transplant assistants in training. Key Points Completely revised and expanded edition Previous edition published 2011 (9789350251799) DVD-ROM featuring surgery overview, assistant training, and ' Test Your Knowledge ' section 319 colour images and illustrations Edited by Emina Karamanovski Vance from Lam Institute for Hair Restoration, Plano, Texas

Hair Transplant 360: Volume 4 – Follicular Unit Extraction (FUE) is an illustrated guide to this minimally invasive procedure, involving the grafting of hair follicles that are genetically resistant to balding, onto a bald scalp. This book is edited by Samuel Lam, Director of the Lam Institute for Hair Restoration, Texas, and Kenneth L Williams from the Irvine Institute of Medicine and Cosmetic Surgery/Orange County Hair Restoration, California. The book is divided into 25 chapters across three sections. The first section covers the basics of FUE beginning with the history, terminology and physics of the technique. Other chapters include information on skin properties and anatomy, scalp anaesthesia, donor evaluation and surgical planning, and improving graft survival. Guidance on starting a practice in FUE is also included. The second part of the book covers FUE methods in detail, and the final section features discussion on specialised topics, such as regenerative medicine, complications and difficulties of FUE, and FUE from the beard and body. Hair Transplant 360: Volume 4 – Follicular Unit Extraction (FUE) contains 510 full colour photographs and illustrations, and includes four DVD ROMs demonstrating various FUE procedures in detail. Key Points Comprehensive, illustrated guide to follicular unit extraction procedures Edited by renowned US experts in the field 510 full colour photographs and illustrations Includes four DVD ROMs demonstrating FUE procedures

Hair Transplant 360 is conceived as an entirely new project idea in which the physicians and the assistants have each been afforded an equally, authoritative voice. Volume 1 is written by a physician for physicians. Understanding when it is safe and beneficial to operate and when to forgo the procedure (medical hair loss conditions, the dilemma of the young patient, scarring alopecia, etc.). Understanding male-pattern baldness and female-pattern baldness. Medical management of hair loss. Hairline design (principles, artistic, ethnic and gender variations; step-by-step technique). Donor harvesting (determining area for harvest, understanding and using different harvest techniques, when to perform a trichophytic closure; step-by-step technique). Recipient-site creation (basic principles: angles and distribution; regional considerations: hairline, female hairline, central forehead, midscalp, temple, lateral hump and crown; step-by-step technique for both single follicular-unit grafting and multiple follicular-unit grafting). Postoperative care, identifying and managing complications. Creating standardized hair-transplant photography. Leadership, office management and marketing. Quality control algorithm for the physician. Case studies, emphasizing creative approach to hair restoration.

Everything you need to know: what is collectible, strategies for buying and selling, the value of an author autograph, how books are made and more. The Instant-Series Presents "Instant Wit" How to Be Witty and Come Up with the Right Things to Say Instantly! Surely you've encountered (or even know) that one particular individual in your life who seems to be able to pull "something witty to say" at the drop of a hat that knocks everyone's socks off - by generating the perfect responses for the perfect moment, cracking unexpected jokes making people laugh, or bantering witty one-liner comments with their endless repertoire of repartees. So who is this Mr./Ms. Witty? You're scratching your head dumbfounded, yet in impressive awe...how in the world do they do it, and deep down secretly wanting to be like them. Who doesn't, right? Who wouldn't love to be admired, respected, and worshipped for their charming clever wit? Yet, it's much more than that. By being witty, you can always come up with the right things to say, at the right time in expressing yourself clearly, concisely, and convincingly at an instant with few short words (no more, no less) that establishes more authority, credibility, and trust. That's the power of having a razor-sharp wit! If the pen is mightier than the sword, then the wit is sharper than the knife. However, let's be honest, being witty doesn't always come naturally, especially for those who are less creative and more logical-prone. The good news is, your wit is like your muscle, and like any muscle, it can be trained and built up...all without needing to memorize any line by knowing a few structures and formulas to guide how to generate your responses. Within "Instant Wit": * How to use this "twister technique" to prepare yourself on what you should say, when the exact moment occurs for your quick comeback. * How to strengthen your creative wit to banter witty one-liners with another person, for good fun or quick laugh. * How to cut down any opponent with your razor-sharp wit, so they won't dare mess with you ever again. * How to take whatever response you get and absorb it, to think of and respond back with the appropriate words. * How to use your clever wit to think fast on your feet during tough situation, to handle it properly for the best outcome. * Plus, custom practical "how-to" strategies, techniques, applications and exercises to improve your wittiness. ...and much more. Don't be dim-witted...be quick-witted. Become the king/queen of your wit by developing a razor-sharp wit to be reckon with. Respect the wit!

Written by leading authorities in complementary and integrative medicine, this convenient, quick-reference handbook provides clear and rational directives on diagnosing and treating specific diseases and disorders with natural medicine. You'll get concise summaries of diagnostic procedures, general considerations, therapeutic considerations, and therapeutic approaches for 84 of the most commonly seen conditions, 12 of which are new to this edition, plus naturopathic treatment methods and easy-to-follow condition flowcharts. Based on Pizzorno's trusted Textbook of Natural Medicine and the most current evidence available, it's your key to accessing reliable, natural diagnosis and treatment options in any setting. Expert authorship lends credibility to information. Scientifically verified content assures the most reliable coverage of diagnostic and natural treatment methods. Over 80 algorithms synthesize therapeutic content and provide support for your clinical judgment with a conceptual overview of case management. The book's compact size makes it portable for easy reference in any setting. A consistent organization saves you time and helps you make fast, accurate diagnoses. 12 NEW chapters enhance your treatment knowledge and understanding with information on important and newly emerging treatments and areas of interest, including: Cancer Endometriosis Fibromyalgia Hair Loss in Women Hyperventilation Syndrome Infectious Diarrhea Intestinal Protozoan Infestation Lichen Planus Parkinson's Disease Porphyrias Proctological Conditions Uterine Fibroids Each chapter is fully updated to reflect the content of the latest edition of Pizzorno's Textbook of Natural Medicine and keep you current on the safest and most effective natural interventions.

This book is a comprehensive guide to hair transplantation for dermatologists and hair transplant surgeons. The text begins with an introduction to evaluation, workup and postoperative care, and anaesthesia and pain management. The next chapters guide clinicians step by step through direct hair transplantation, design, and reconstruction, followed by discussion on follicular unit excision (FUE), a technique using grafts. In addition to detailed coverage of hair transplantation on the scalp, the book also explores body hair transplants and eyebrow and eyelash transplantation, concluding with a chapter on setting up a hair transplant centre. The book is further enhanced by nearly 400 descriptive photographs, diagrams and tables. Key points Comprehensive, step by step guide to hair transplantation Includes discussion on follicular unit excision (FUE) and its complications Covers body hair and eyebrow/eyelash transplantation as well as scalp Features nearly 400 clinical photographs, diagrams and tables

Life is created by a series of events. If you can find some way to pull 20 extra minutes out of your life, you'd better use them wisely. Where will you discover this time, and when you find this time, how will you use it? Just 20 minutes a day will convert into a powerful 121 hours a year. That is a huge piece of time that you can use to gain new capacities and expand. The advantage is seen when we make a day by day decision and submit those 20 minutes to something beneficial. You can awaken 20 minutes before, take 20 minutes from lunch, after work, or just before bed - the decision is totally up to you. Just do it! Remove all excuses and distractions. Imagine if you just use 20 minutes a day to create a spark for your business. That small spark can turn into a major flame! How do you create this spark for your business? It's through promotion. Promotion isn't something that ought to be done randomly, just when you think you have sufficient energy to do it. Honestly, as an entrepreneur who's always busy, you're never going to have room schedule-wise. Consequently, you need to make time for what's important. This implies doing something intentional each and every day. Before you think you don't have room schedule-wise to do that, reconsider. Showcasing doesn't need to be hours of your day. Instead, it's something you can do in as little time as 20 minutes a day.
