Louie Giglio helps you find encouragement, hope, and strength in the midst of any valley as you reject the enemy voices of fear, rage, lust, insecurity, anxiety, despair, temptation, or defeat. Scripture is clear: the Enemy is a liar who will stop at nothing to tempt you into poor decisions and self-defeating mindsets, making you feel afraid, angry, anxious, or defeated. It is all too easy for Satan to weasel his way into a seat at the table intended for only you and your King. But you can fight back. Don’t Give the Enemy a Seat at Your Table outlines the ways to overcome those lies so you can find peace and security in any challenging circumstance or situation. With the same bold, exciting approach to Scripture as employed in Goliath Must Fall and his other previous works, pastor Louie Giglio examines Psalm 23 in fresh ways, highlighting verse 5: “You prepare a table before me in the presence of my enemies.” You can find freedom from insecurity, temptation, and defeat—if you allow Jesus, the Shepherd, to lead the battle for your mind and heart. This spiritual warfare book for those who are leery of spiritual warfare books will resonate with Louie’s core Passion tribe as well as with Christians of all ages who want to live a triumphant life in God.

Patient Care in Radiography helps you acquire and refine both the technical and interpersonal skills you need to provide quality patient care in the clinical environment. Because patient care is involved in virtually every aspect of imaging, high-quality patient care is just as important as your competent performance of procedures. In Patient Care in Radiography, patient care is integrated with procedural skills throughout the text, ensuring that you know how to provide the best care for every patient you encounter. Skills that are imperative for quality patient care in radiography, such as safety, transfer, and positioning; infection control; and patient assessment are emphasized. You'll find full coverage of introductory topics, as well as key information on microbiology, emerging diseases, transcultural communication, ECGs, administration of medications, and bedside radiography.

Takumi and Hachi are getting married, but it's far from a joyous announcement. Nobu and Nana are devastated, and even Takumi's bandmates take the news hard. With paparazzi skulking around for a new scandal to exploit and tensions between Trapnest and Blast on high alert, will Hachi ever get her happily ever after? -- VIZ Media

Marilyn Minter is famed for her glossy, hyper-realistic paintings, photographs and video works-seductive images that borrow the language of fashion and advertising photography, exploring the boundaries of desire, sensuality and body anxiety in the age of consumption. Close-up imagery of mouths, feet, splashes and puddles, rendered in high-gloss enamel on sheets of metal, subversively questions the pathology of glamour. Produced in conjunction with the first major museum retrospective on her work, "Pretty/Dirty" examines every period of the artist's 40-year career, from her beginnings with the controversial porn paintings, initially rejected by the critical establishment, to her later large-scale photorealistic works. Essays from the exhibition's curators examine the trajectory of Minter's development and her engagement with debates over the representation of the female body. Texts from musicians, artists, writers and curators speak to Minter's wide-ranging influence: reflections from the likes of artist K8 Hardy, musician and author Richard Hell, and poet Eileen Myles, as well as an artist interview with writer Linda Yablonsky. Illustrated with hundreds of full-color reproductions, and with a complete biography and bibliography, "Pretty/Dirty" charts a new perspective on the career of this exciting and continually evolving artist. Marilyn Minter (born 1948) has been the subject of numerous solo exhibitions, at venues including the San Francisco Museum of Modern Art in 2005, the Center for Contemporary Art, Cincinnati, in 2009 and the Museum of Contemporary Art, Cleveland, in 2010. Her video "Green Pink Caviar" was exhibited in the lobby of MoMA for over a year, and was also shown on digital billboards on Sunset Boulevard in LA, and the Creative Time MTV billboard in Times Square, New York.

Hot and Smoky Shrimp Tacos, Roasted Wild Mushroom Tacos with Queso Fresco, Fire-Roasted Corn and Poblano Chile Tacos-these are a few of the most taste-tempting tacos you'll ever put in your mouth. And what to top them with-of course, it must be the perfect salsa!

Emphasizing sustainability, balance, and the natural, green dominates our thinking about ecology like no other color. What about the catastrophic, the disruptive, the inaccessible, and the excessive? What of the ocean’s turbulence, the fecundity of excrement, the solitude of an iceberg, multihued contaminations? Prismatic Ecology moves beyond the accustomed green readings of ecotheory and maps a colorful world of ecological possibility. In a series of linked essays that span place, time, and discipline, Jeffrey Jerome Cohen brings together writers who illustrate the vibrant worlds formed by colors. Organized by the structure of a prism, each chapter explores the coming into existence of nonanthropocentric ecologies. “Red” engages sites of animal violence, apocalyptic emergence, and activism; “Maroon” follows the aurora borealis to the far North and beholds in its shimmering alternative modes of world composition; “Chartreuse” is a meditation on postsustainability and possibility within sublime excess; “Grey” is the color of the undead; “Ultraviolet” is a potentially lethal force that opens vistas beyond humanly known nature. Featuring established and emerging scholars from varying disciplines, this volume presents a collaborative imagining of what a more-than-green ecology offers. While highlighting critical approaches not yet common within ecotheory, the contributions remain diverse and cover a range of topics including materiality, the inhuman, and the agency of objects. By way of color, Cohen guides readers through a reflection of an essentially complex and disordered universe and demonstrates the spectrum as an unfinishable totality, always in excess of what a human perceives.
