Il caso Moro e i suoi falsi misteri - Vladimiro Satta ...

IL CASO MORO Per caso Moro si intende l'insieme delle vicende relative all'agguato, al sequestro, alla prigionia e all'uccisione di Aldo Moro, nonché alle ipotesi sull'intera vicenda e alle ricostruzioni degli eventi, spesso discordanti fra loro. La mattina del 16 marzo 1978, l'auto che trasportava Aldo Moro dalla sua abitazione

IL CASO MORO - Associazione Nuova Generazione
Oggi è ovvio che vi siano altri aspetti e altri uomini all’origine dei guasti, così come i figli succedono ai padri e questi ai nonni. Chiarire il caso di Aldo Moro è quindi oltre che un tributo alla verità, una ricerca delle radici dei nostri mali, della cui essiccazione non credo si possa fare a meno.

CASO MORO. IL GEN. LAPORTA RISPONDE A DOMANDE E COMMENTI ...

E’ in quel periodo che il caso Moro si amplia oltre gli aspetti che riguardavano la vicenda personale dello statista. Nonostante le tante dichiarazioni ufficiali, la questione dell’essere umano Aldo Moro diviene del tutto secondaria, se non addirittura ininfluente agli occhi di alcuni. Andava persino oltre quella del brigatismo in sé.

Vladimiro Satta – Il caso Moro e i suoi falsi misteri – 2006

Per il generale Inzerilli, durante il caso Moro, «Guglielmi abitava a Modena, e dirigeva i carabinieri di quella città». Non la pensa così il membro della Commissione, Gero Grassi: «Guglielmi abitava in via Stresa 117, nei pressi di via Fani, il suo nome è sull’elenco telefonico del tempo».

The 1978 kidnapping and murder of Christian Democrat politician, Aldo Moro, marked the watershed of Italy's experience of political violence in the period known as the 'years of lead' (1969-c.1983). This uniquely interdisciplinary volume explores the evolving legacy of Moro's death in the Italian cultural imaginary, from the late 1970s to the present. Bringing a wide range of critical perspectives to bear, interventions by experts in the fields of political science, social anthropology, philosophy, and cultural critique elicit new understandings of the events of 1978 and explain their significance and relevance to present-day Italian culture and society.

No other European country experienced the disruption of political and everyday life suffered by Italy in the so-called 'years of lead' (1969-c.1983), when there were more than 12,000 incidents of terrorist violence. This experience affected all aspects of Italian cultural life, shaping political, judicial and everyday language as well as artistic representation of every kind. In this innovative and broad-ranging study, experts from the fields of philosophy, history, media, law, cinema, theatre and literary studies trace how the experience and legacies of terrorism have determined the form and content of Italian cultural production and shaped the country's way of thinking about such events?

Italy Today represents one of the most comprehensive examinations of contemporary Italy. It is a provocative and an innovative collection that aims to highlight the current ‘crisis’ of the country through an analysis of several different ‘dark shadows’ of contemporary Italian society. Italy already had a long history of ‘unsolved’ issues, several chronic problems and contradictions that have been ignored for a very long time, during which they have assumed dramatic proportions and gravity. The peninsula has now become the ‘Sick Man of Europe’, a country facing a veritable decline also caused by apparent incapacity and difficulties of the ruling economic, political and social elites. Discussions include: an evaluation of the current predicaments of the political system analysis of emerging mafias, including new powerful crime organizations such as ‘Ndrangheta issues surrounding the ongoing presence of Fascism examination of the recent xenophobic tensions discussion of problems associated with the missed opportunity of the EU funding, and the increasing regional economic gaps outline of the systemic troubles of Italy’s economic and industrial system. Written by leading experts in the field and covering a wide range of topics, this collection is essential reading for all those seeking to understand the issues and problems that are facing contemporary Italy.

Italy played a vital role in the Cold War dynamics that shaped the Middle East in the latter part of the 20th century. It was a junior partner in the strategic plans of NATO and warmly appreciated by some Arab countries for its regional approach. But Italian foreign policy towards the Middle East balanced between promoting dialogue, stability and cooperation on one hand, and colluding with global superpower manoeuvres to exploit existing tensions and achieve local influence on the other. Italy and the Middle East brings together a range of experts on Italian international relations to analyse, for the first time in English, the country's Cold War relationship with the Middle East. Chapters covering a wide range of defining twentieth century events - from the Arab-Israeli conflict and the Lebanese Civil War, to the Iranian Revolution and the Soviet invasion of Afghanistan – demonstrate the nuances of Italian foreign policy in dealing with the complexity of Middle Eastern relations. The collection demonstrates the interaction of local and global issues in shaping Italy's international relations with the Middle East, making it essential reading to students of the Cold War, regional interactions, and the international relations of Italy and the Middle East.

Ending Terrorism in Italy analyses processes of disengagement from terrorism, as well as the connected issues of reconciliation, truth and justice. It examines in a critical and original way how terrorism came to an end in Italy (Part I), and the legacy it has left behind (Part II). The book interrogates a wide array of published memoirs and a considerable number of new face-to-face interviews with both former terrorists and first and second generation victims In the last two decades, and especially in recent years, former extreme-right terrorists in Italy have started to talk about their past involvement in terrorist violence, including, for the first time, acts of violence which have for decades been considered taboo, that is to say, bomb attacks against innocent civilians. These narratives add to the perspectives offered by members of left-wing terrorist groups, such as the Red Brigades and Prima Linea. Surprisingly, these narratives have not been systematically examined, yet they form a unique and extremely rich source of first-hand testimony, providing invaluable insights into processes of youth radicalization and de-radicalization, the social re-integration of ex-terrorists, as well as personal and collective healing. Even less attention has been paid to the victims’ narratives or stories. Indeed, the views and activities of the victims and their associations have been seriously neglected in the scholarly literature on terrorism, not just in Italy, but elsewhere in Europe. The book therefore examines the perspectives of the victims and relatives of victims of terrorism, who over the years have formed dedicated associations and campaigned relentlessly to obtain justice through the courts, with little or no support from the state and, especially in the case of the bombing massacres, with increasing awareness that the state played a role in thwarting the course of justice. Ending Terrorism in Italy will be of interest to historians, social scientists and policy makers as well as students of political violence and post-conflict resolution. .

The history of Italy's victory over the Red Brigades offers lessons that may be useful to America's future. The United States has suffered from the horrors of home grown and global terrorism but so far has been spared the endemic violence of the kind that plagued Italy during the years of lead that are described in this volume. In 2003, Philip Heymann compared the US favorably to Italy, expressing relief that American society did not suffer from the kind of deep divisions that had created the conditions for the rise of the Red Brigades. Fifteen years later, Heymann's confidence no longer looks so well founded. The political divisions in the United States have widened and become stubbornly entrenched. The combination of conspiratorial thinking, ideological division and a powerful sense of grievance, combined with the easy access to powerful weapons and a cult of political violence, should worry all those who are sworn to keep the peace.

This book explores the communicative practices of the Italian radical group Red Brigades (Brigate Rosse, or BR), the relationship the group established with the Italian press, and the specific social historical context in which the BR developed both its own self-understanding and its complex dialectical connection with the society at large. The BR's worldview and the dominant ideology(ies) mediated by the press are treated as competing responses to structural issues of Italian history: the structural weakness of the nation state, the contradictions of an uneven economic development, and the consequent struggle of the bourgeois class to achieve hegemonic rule.

This book offers a new model for measuring the success and impact of counterterrorism strategies, using four comparative historical case studies. The effectiveness of counterterrorism measures is hard to assess, especially since the social impact of terrorist attacks is a fundamental and complex issue. This book focuses on the impact of counterterrorist measures by introducing the concept of the performative power of counterterrorism: the extent to which governments mobilize public and political support - thereby sometimes even unwittingly assisting terrorists in creating social drama. The concept is applied to counterterrorism in the Netherlands, Italy, the Federal Republic of Germany and the United States in the 1970s. Based on in-depth case study research using new primary sources and interviews with counterterrorist officials and radicals, a correlation is established between a low level of performative power and a decline of terrorist incidents. This is explored in terms of the link between social drama (as enhanced by counterterrorist measures) and ongoing radicalization processes. This book demonstrates that an increase in visible and intrusive counterterrorist measures does not automatically lead to a more effective form of counterterrorism. In the open democracies of the west, not transforming counterterrorism into a performance of power and repression is at least as important as counterterrorism measures themselves. This book will be of much interest to students of terrorism and counter-terrorism, discourse analysis, media and communication studies, conflict studies and IR/Security Studies in general.
