From the author of the classic *Mom's House, Dad's House*, the essential guide for kids on how to stay strong and succeed in life when parents separate, divorce, or get married again. Isolina Ricci's *Mom's House, Dad's House* has been the gold standard for inspiring and supporting divorcing and remarrying parents for more than twenty-five years. With her new book, Dr. Isa adapts her time-tested advice on maneuvering the emotional, logistical, and legal realities of separation, divorce, and stepfamilies to speak directly to children. Alongside practical ways to cope with big changes she offers older children and their families key resiliency tools that kids can use now and the rest of their lives. Kids and families are encouraged to believe in themselves, to take heart, and to plan for their lives ahead. *Mom's House, Dad's House for Kids* is packed with practical tips, frank answers, easy-to-use lists, "train your brain" ideas, reproducible worksheets, and things to try when words just won't come out right. Kids will learn how to:

- Deal with parents living apart, schedules, and dueling house rules
- Settle comfortably in one home or two
- Stay out of the "miserable middle" when parents fight
- Manage stress, guilt, change, fear, and other feelings
- Stay connected with parents, relatives, and the "right" friends
- Appreciate the gifts (and deal with the gripes)

of their new version of family · Feel better FAST! Kids can't get their parents back together, but they can help themselves get stronger and go on to succeed in life. This book shows them how.

This dark portal fantasy introduces Detective Dana Rohan, an officer who solves crimes using the Mark that allows her to travel to alternate pasts and futures. Detective Dana Rohan has an excellent arrest and conviction rate. But even her partner doesn't know the real reason why. All her life Dana has borne a Mark of unknown origin that she's kept secret. A Mark that allows her to walk into alternate pasts and futures. A Mark that allows her to go back and see any crime as it's being committed. But the life she's carefully built around this secret ability begins to crumble when she's assaulted by a ragged old man. He babbles an incoherent warning that "the Shadows are coming," right before he is killed by an armored monstrosity out of another century. The armored attacker vanishes, leaving the old man to die in Dana's arms, and she realizes that he bears the same Mark she does. Soon Dana finds herself hunted by Shadows coming from out of Chaos. She must flee through a host of alternate worlds as she finds out the true meaning of the Mark on her skin, and why someone wants to kill her for it.

As today's spark-ignition and diesel engines have to fulfil constantly increasing demands with regard to CO₂ reduction, emissions, weight and lifetime, detailed knowledge of the components of an internal combustion engine is absolutely essential. Automotive engineers can no longer survive without such expertise, regardless of whether they are involved in design, development, testing or maintenance. This text book

provides answers to questions relating to the design, production and machining of cylinder components in a comprehensive technical analysis.

This story is based on one found on a papyrus scroll of hieroglyphs from the nineteenth century B.C., Egypt. It tells the tale of a voyage on the Red Sea to a mysterious and enchanted land of riches located south of Egypt. On his way to the King's gold mines, a sailor is shipwrecked on a magic island, the Island of the Soul. Not long after he arrives, a gigantic serpent with scales of gold appears and reveals to the sailor that he is the Prince of Punt, and is also a lone survivor. The two become good friends, but one day a ship comes to rescue the sailor. Bearing gifts from the Prince, the sailor returns to Egypt with full hands, and a full heart. This is a tale of the surprising (and fortuitous) bonds that unite us, and of the good that comes to us when we least expect it. Tamara Bower's lush illustrations are rendered in Egyptian style, and phrases from the story appear in hieroglyphs with their literal translations.

The authoritative, hands-on book for Ford Engine Control Systems. Author Charles Probst worked directly with Ford engineers, trainers and technicians to bring you expert advice and "inside information" on the operation of Ford systems. His comprehensive troubleshooting, service procedures and tips will help you master your Ford's engine control system.
