"I've been in Florence for now two days, still brutally jet-lagged. I keep waking up at a 4 or 5 in the morning. These have been slow, long days. Already a pace aggressively different than the last few weeks in LA for me. It feels good though. There's a kind of whiplash, still reeling from the absurd, unnecessary non-stop-ness of my end-of-semester weeks in late April/early May. Many things to learn from, which is why it feels so good to be here. And why I write to you now, not simply because it's been far too long, but also

because you are an inspiration! I cannot help but think about your travels and yes, your wisdom, when reeling slowly and pleurably, freshly here in Tuscany." --Erik Benjamins, *Butts of Florence*

In 2006, Erik Benjamins, a Los Angeles-based artist, spent six months in Florence, Italy as an American student abroad. Eight years later, in 2014, he returned for six weeks to teach, walk, watch, think, eat, and learn. *Butts of Florence*, published now for the first time by No Style Press, is a collection of writing and photographs taken during this six-week stay. Formally stunning black and white photographs of the butts of various Florentine sculptures punctuate writing that adopts the forms of diaristic entries, appropriated letter writing, travel guide tips, restaurant reviews, and poetic prose. Together, text and image build the arc of a humorous, hungry, critical, introspective, romantic, and grateful visitor to one of the most

storied cities in history."This compact volume packs a punch--the perfect literary companion for a jaunt to Italy. A game changer."  
--Dr. Anthony Martin, molecular biologist and director of PATAO

Until now, the literature on innovation has focused either on radical innovation pushed by technology or incremental innovation pulled by the market. In *Design-Driven Innovation: How to Compete by Radically Innovating the Meaning of Products*, Roberto Verganti introduces a third strategy, a radical shift in perspective that introduces a bold new way of competing. Design-driven innovations do not come from the market; they create new markets. They don't push new technologies; they push new meanings. It's about having a vision, and taking that vision to your customers. Think of game-changers like Nintendo's Wii or Apple's iPod. They

overturned our understanding of what a video game means and how we listen to music. Customers had not asked for these new meanings, but once they experienced them, it was love at first sight. But where does the vision come from? With fascinating examples from leading European and American companies, Verganti shows that for truly breakthrough products and services, we must look beyond customers and users to those he calls "interpreters" - the experts who deeply understand and shape the markets they work in. Design-Driven Innovation offers a provocative new view of innovation thinking and practice.

The three-volume Encyclopedia of Consumer Culture covers consuming societies around the world, from the Age of Enlightenment to the present, and shows how consumption has
