~~Revision | Key Stage 2 | Collins KS2 SATs Practice~~

Maths SATs Reasoning Sample Question 7. This is perhaps one of the most difficult questions in both reasoning papers. It relies on the child 's ability to manipulate numbers and, in actual fact, use algebraic equations to solve a problem. If the child recognises that $18 + 9 + 2 \text{ widths} = 34 + 1 \text{ width}$, or that $27 + 2 \text{ widths} = 34 + 1 \text{ width}$ (or even that $27 + 1 \text{ width} = 34$), then they should be able to conclude that $34 - 27 = 7$, which is the width of one tile.

~~Revision And Practice~~
Paper 2 Question 22 Maths KS2 SATs 2018. This question relied on pupils being able to visualise the completed cube, and therefore work out the dimensions of the cube based on the measurement given in order to work out the volume. This was certainly the toughest single mark question across both papers.
