Born in 1951 to a distinguished Arab-American family, Lisa Najeeb Halaby became the fourth wife of King Hussein at age 27. With her husband being not only Jordan's monarch but the spiritual leader of all Muslims, Lisa was unsure what her role would be. This moving memoir provides a timely look at one woman's story against a backdrop of 30 turbulent years: the displacement of over 1 million Palestinians by the creation of Israel, King Hussein's frustrated efforts for peace, and the effect of Saddam Hussein and the Gulf War on Jordan and the royal family. Queen Noor offers intimate new glimpses of King Hussein, Saddam Hussein, Queen Elizabeth, Arafat, and many other world leaders.

Born into a distinguished Arab-American family and raised amid privilege, Lisa Halaby was in the first co-educational freshman class at Princeton, graduating in 1974 with a degree in architecture and urban planning. Then, in 1976, she was introduced, on an airport runway, to King Hussein of Jordan, a direct descendent of the prophet Muhammed. In less than two years, she was his wife, Noor al-Hussein, Queen of Jordan. With eloquence and candour, Noor talks frankly of the many challenges of her life as wife and partner to the monarch, providing both an intimate portrait of the late King Hussein and his quest for peace in the Middle East, and a moving account of the demands his public role as a world statesman placed on the royal couple's private life. Sharing a personal perspective on the past three decades of world history, Leap of Faith highlights Queen Noor's views on Islam and the West; the challenges of rearing her family; her work as Queen and humanitarian activist; and her struggles to protect her husband as he slipped into the illness that would kill him in 1999. Her story is filled with recollections of the world's most powerful and interesting people: Queen Elisabeth, Jimmy Carter, Pierre Trudeau, Yassar Arafat and Anwar Sadat. In the wake of September 11, Noor reflects on the true message of Islam and the ongoing violence in the Middle East from her unique perspective with a deep and abiding understanding of Arab aspirations and history. Leap of Faith is refreshingly candid and clear-eyed, a true love story set against the turbulent politics of the last thirty years.

A #1 New York Times Bestseller This is the story of a young American woman who became wife and partner to an Arab monarch. It provides a compelling portrait of the late King Hussein and his lifelong effort to bring peace to his war torn region, and an insider's view of the growing gulf between the United States and the Arab nations. It is also the refreshingly candid story of a mother coming to terms with the demands the king's role as a world statesman placed on her family's private life. But most of all it is a love story -- the intimate account of a woman who lost her heart to a king, and to his people.

Leap of Faith is the dramatic and inspiring story of an American woman's remarkable journey into the heart of a man and his nation.

"The fan-favorite couple from Netflix's Love Is Blind share their ups and downs after two years of marriage, love advice for the modern world, and behind-the-scenes anecdotes from the pods"--

Seventeen-year-old Faith shepherds her neglectful, drug-addicted mother through her pregnancy and then kidnaps the baby, taking on the responsibility of being her baby sister's parent while hiding from the authorities.

Doug and Cheri have just retired to move halfway around the world. They have been called to help birth an institution that will train ministers from six countries in Southern Africa. But what is a lawyer and a nurse doing at a seminary? They certainly don't know. Cultural differences make for a dicey life in Kwa-Zulu Natal, South Africa. They befriend tribal Africans, Afrikaners, Brits, Indians, Muslims, giraffes, zebras, and elephants. But what ensues is an adventure of their lifetimes.

Growing up desolate under the eye of a resentful great aunt on an Iowa farm, Marie-Ange Hawkins dreams of returning to the French chateau where she lived before she had been orphaned, but when she finally does so, she learns a devastating truth. Reprint.

Charles Darwin published The Origin of Species, his revolutionary tract on evolution and the fundamental ideas involved, in 1859. Nearly 150 years later, the theory of evolution continues to create tension between the scientific and religious communities. Challenges about teaching the theory of evolution in schools occur annually all over the country. This same debate raged within Darwin himself, and played an important part in his marriage: his wife, Emma, was quite religious, and her faith gave Charles a lot to think about as he worked on a theory that continues to spark intense debates. Deborah Heiligman's new biography of Charles Darwin is a thought-provoking account of the man behind evolutionary theory: how his personal life affected his work and vice versa. The end result is an engaging exploration of history, science, and religion for young readers. Charles and Emma is a 2009 National Book Award Finalist for Young People's Literature.
