With an afterword by Natasha Wimmer. Winner of the Heralde Prize and the Rómulo Gallegos Prize. Natasha Wimmer's translation of *The Savage Detectives* was chosen as one of the ten best books of 2007 by the Washington Post and the New York Times. *New Year's Eve* 1975, Mexico City. Two hunted men leave town in a hurry, on the desert-bound trail of a vanished poet. Spanning two decades and crossing continents, theirs is a remarkable quest through a darkening universe — our own. It is a journey told and shared by a generation of lovers, rebels and readers, whose testimonies are woven together into one of the most dazzling Latin American novels of the twentieth century.

After a week of hearing ghostly noises, a man is visited in his home by the spirit of his mother, dead for three decades. She reproaches him for his dissolute life and begs him to have Masses said in her name. Then she lays her hand on his sleeve, leaving an indelible burn mark, and departs... A Lutheran minister, no believer in Purgatory, is the puzzled recipient of repeated visitations from "demons" who come to him seeking prayer, consolation, and refuge in his little German church. But pity for the poor spirits overcomes the man's skepticism, and he marvels at what kind of departed souls could belong to Christ and yet suffer still... *Hungry Souls* recounts these stories and many others trustworthy, Church-verified accounts of earthly visitations from the dead in Purgatory. Accompanying these accounts are images from the "Museum of Purgatory" in Rome, which contains relics of encounters with the Holy Souls, including numerous evidences of hand prints burned into clothing and books; burn marks that cannot be explained by natural means or duplicated by artificial ones. Riveting!

Written by a leading proponent of biophilic design, this is the only practical guide to biophilic design principles for interior designers. Describing the key benefits, principles and processes of biophilic design, *Nature Inside* illustrates the implementation of biophilic design in interior design practice, across a range of international case studies — at different scales, and different typologies. Starting with the principles of biophilic design, and the principles and processes in practice, the book then showcases a variety of interior spaces — residential, retail, workplace, hospitality, education, healthcare and manufacturing. The final chapter looks —outside the walls—, giving a case study at the campus and city scale. With practical guidance and real-world solutions that can be directly-applied in day-to-day practice, this is a must-have for designers interested in applying biophilic principles.

In this remarkable book, Carl Verheyen teaches his philosophy and techniques for improvising. Rather than hashing out scales, Carl teaches how to play lines with strong melodic content. By approaching melodies through intervals and chord qualities, infinite lines can be generated. Carl stresses the importance of collecting lines that can be used in improvised settings. These lines and examples will provide outstanding material for any guitarist yearning for melodic ideas and inspiration. Presented in standard notation and tab.

A humorous covered notebook for people who loves the special dog breed. The cover of this journal is dedicated for those people who don't

care what others think of them. They only care about what their dog thinks. Our designers want to show true respect for this cute dog breed lovers.
