This book is designed to explain the technical ideas that are taken for granted in much contemporary philosophical writing. Notions like denumerability, modal scope distinction, Bayesian conditionalization, and logical completeness are usually only elucidated deep within difficult specialist texts. By offering simple explanations that by-pass much irrelevant and boring detail,

Philosophical Devices is able to cover a wealth of material that is normally only available to specialists. The book contains four sections, each of three chapters. The first section is about sets and numbers, starting with the membership relation and ending with the generalized continuum hypothesis. The second is about analyticity, a prioricity, and necessity. The third is about probability, outlining the difference between objective and subjective probability and exploring aspects of conditionalization and correlation. The fourth deals with metalogic, focusing on the contrast between syntax and semantics, and finishing with a sketch of Gödel's theorem. Philosophical Devices will be useful for university

students who have got past the foothills of philosophy and are starting to read more widely, but it does not assume any prior expertise. All the issues discussed are intrinsically interesting, and often downright fascinating. It can be read with pleasure and profit by anybody who is curious about the technical infrastructure of contemporary philosophy.

In 1881, the Egyptian army mutinied against the Khedive of Egypt and forced him to appoint Said Ahmed Arabi as Minister of War. In March 1882, Arabi was made a Pasha and from this time on acted as a dictator. Arabi demanded that the foreigners be driven out of Egypt and called for the massacre of Christians. This

prompted an armed British response, first in the form of a naval bombardment of Alexandria, and then as an expeditionary force under Lieutenant-General Wolseley. This book explores the entire campaign, including Sir Wolseley's 'textbook' operation that was planned and executed with masterly competence.

On 30 September 1938 Neville Chamberlain flew back to London from his meeting at Munich with the German Chancellor, Adolf Hitler. As he paused on the aircraft steps, he held aloft the piece of paper which bore both his and the F ü h r e r's signature, the promise that Britain and Germany would never go to war with one another again. He had returned

bringing 'Peace with honour - Peace for our Time.' Drawing on a wealth of original archival material, David Faber sheds new light on this extraordinary story, tracing the key incidents leading up to the meeting at Munich and its immediate aftermath: Lord Halifax's ill-fated visit to Hitler; Chamberlain's secret negotiations with Mussolini, and the Berlin scandal that rocked Hitler's régime. He takes us to Vienna, to the Sudetenland, and to Prague. In Berlin, we witness Hitler inexorably preparing for war; and in London, we watch helplessly as Chamberlain makes one supreme effort after another to appease Hitler.

Years after the U.S. invasion of

Iraq, a loosely organized insurgency continues to target American and Coalition soldiers, as well as Iraqi security forces and civilians, with devastating results. In this sobering account of the ongoing violence, Ahmed Hashim, a specialist on Middle Eastern strategic issues and on irregular warfare, reveals the insurgents behind the widespread revolt, their motives, and their tactics. The insurgency, he shows, is not a united movement directed by a leadership with a single ideological vision. Instead, it involves former regime loyalists, Iraqis resentful of foreign occupation, foreign and domestic Islamist extremists, and elements of organized crime. These groups have cooperated with one another in the past and

coordinated their attacks; but the alliance between nationalist Iraqi insurgents on the one hand and religious extremists has frayed considerably. The U.S.-led offensive to retake Fallujah in November 2004 and the success of the elections for the Iraqi National Assembly in January 2005 have led more "mainstream" insurgent groups to begin thinking of reinforcing the political arm of their opposition movement and to seek political guarantees for the Sunni Arab community in the new Iraq. Hashim begins by placing the Iraqi revolt in its historical context. He next profiles the various insurgent groups, detailing their origins, aims, and operational and tactical modi operandi. He concludes with an unusually candid

assessment of the successes and failures of the Coalition's counter-insurgency campaign. Looking ahead, Hashim warns that ethnic and sectarian groups may soon be pitted against one another in what will be a fiercely contested fight over who gets what in the new Iraq. Evidence that such a conflict is already developing does not augur well for Iraq's future stability. Both Iraq and the United States must work hard to ensure that slow but steady success over the insurgency is not overshadowed by growing ethno-sectarian animosities as various groups fight one another for the biggest slice of the political and economic pie. In place of sensational headlines, official triumphalism, and hand-wringing,
