Literacy and Racial Justice: The Politics of Learning ...

In *Literacy and Racial Justice* (2003), Catherine Prendergast explores how "literacy and racial justice have become intertwined in the American imagination to the extent that it is now difficult to invoke one without the other" (1) and argues that literacy, as it is conceived and discussed in America, is understood as the property of Whites (5).

The Literacy Council proudly stands in support of racial justice and equality. Literacy is and always has been a social justice issue. The denial of literacy has been used as a barrier to freedom, justice, equality, and civil rights. During the 1800s, slave codes were enacted to make it unlawful for black people to learn to read and write.

We examine financial literacy and the returns to financial literacy education, specifically focusing on the racial financial literacy gap. We confirm evidence that whites have higher financial literacy scores relative to minorities and that financial literacy increases with participation in financial literacy education.

Board of Education decision, Catherine Prendergast draws on a combination of insights from legal studies and literacy studies to interrogate contemporary multicultural literacy initiatives, thus providing a sound historical basis that informs current debates over affirmative action, school vouchers, reparations, and high-stakes standardized testing. As a result of Brown and subsequent crucial civil rights court cases, literacy and racial justice are firmly enmeshed in the American imagination?so much so that it is difficult to discuss one without referencing the other. This volume brings together respected scholars to examine the intersections of race, justice, and activism in direct relation to the teaching and learning of critical literacy. The authors focus on literacy praxis that reflect how students--with the loving, critical support of teachers and teacher

educators--engage in resistance work and collaborate for social change. Each chapter theorizes how students and adults initiate and/or participate in important justice work, how their engagements are situated within a critical literacy lens, and what their engagements look like in schools and communities. The authors also explore the importance of this work in the context of current sociopolitical developments, including police shootings, deportations, and persistent educational inequities. Book Features: The most recent work of both emerging and well-known literacy and social justice scholars. Examples of student activism across multiple geographic contexts in the United States. Accessible questions to help guide discussions related to the overall topics, theories, and methods.

Bringing together theory, research, and practice to dismantle Anti-Black Linguistic Racism and white linguistic supremacy, this book provides ethnographic snapshots of how Black students navigate and negotiate their linguistic and racial identities across multiple contexts. By highlighting the counterstories of Black students, Baker-Bell demonstrates how traditional approaches to language education do not account for the emotional harm, internalized linguistic racism, or consequences these approaches have on Black students' sense of self and identity. This book presents Anti-Black Linguistic Racism

as a framework that explicitly names and richly captures the linguistic violence, persecution, dehumanization, and marginalization Black Language-speakers endure when using their language in schools and in everyday life. To move toward Black linguistic liberation, Baker-Bell introduces a new way forward through Antiracist Black Language Pedagogy, a pedagogical approach that intentionally and unapologetically centers the linguistic, cultural, racial, intellectual, and self-confidence needs of Black students. This volume captures what Antiracist Black Language Pedagogy looks like in classrooms while simultaneously illustrating how theory, research, and practice can operate in tandem in pursuit of linguistic and racial justice. A crucial resource for educators,

researchers, professors, and graduate students in language and literacy education, writing studies, sociology of education, sociolinguistics, and critical pedagogy, this book features a range of multimodal examples and practices through instructional maps, charts, artwork, and stories that reflect the urgent need for antiracist language pedagogies in our current social and political climate.

Today's students use their digital expertise and the power of their voice to respond to issues of inequity in society. It is essential that teacher educators develop their own racial literacies and those of their preservice and classroom teachers to support student digital activism. From talking about race and racism to resisting the harmful narratives that circulate online

but impact face-to-face interactions in the classroom, teacher educators must navigate sociotechnical spaces with a critical lens and develop strategies to help their preservice teachers do the same. This book is designed to increase educators' capacity and agency to respond to inequities that plague our educational system. The authors provide a framework to help readers rethink how curriculum and pedagogy impact classroom instruction. In *Advancing Racial Literacies in Teacher Education*, Price-Dennis and Sealey-Ruiz provide theoretical and practical entry points into a conversation about race in the digital age that aim to increase equity in schools and better prepare teachers entering the U.S. school system. Book Features: Provides examples of how racial literacy can be fostered in

teacher education programs. Offers reflection questions designed to assess the status of racial literacy in both teacher education programs and K-12 classrooms. Helps educators develop curricula that leverage multimodal ways of cultivating racial literacy. Offers a conceptual model of racial literacy for the digital age that advances civic engagement for equity in education. Focuses on pedagogical practices that support racial literacy development in teacher education. Includes a Foreword by Jabari Mahiri and an Afterword by Rebecca Rogers, leading scholars in the field of racial literacy.

Racial literacy is vital in a society that professes meritocracy and post-racialism yet where racism and racialism continue. From the planning

“Illuminates the very heart of social justice and how it might be approached and nurtured through mindfulness practices in community and through the discernment and new degrees of freedom these practices entrain.” --from the foreword by Jon Kabat-Zinn In a society where unconscious bias, microaggressions, institutionalized racism, and systemic injustices are so deeply ingrained, healing is an ongoing process. When conflict and division are everyday realities, our instincts tell us to close ranks, to find the safety of our own tribe, and to blame others. This book

profoundly shows that in order to have the difficult conversations required for working toward racial justice, inner work is essential. Through the practice of embodied mindfulness--paying attention to our thoughts, feelings, and physical sensations in an open, nonjudgmental way--we increase our emotional resilience, recognize our own biases, and become less reactive when triggered. As Sharon Salzberg, New York Times-bestselling author of *Real Happiness* writes, "Rhonda Magee is a significant new voice I've wanted to hear for a long time—a voice both unabashedly powerful and deeply loving in looking at race and racism." Magee shows that embodied mindfulness calms our fears and helps us to exercise self-compassion. These practices help us to slow down and reflect on microaggressions--to hold

them with some objectivity and distance--rather than bury unpleasant experiences so they have a cumulative effect over time. Magee helps us develop the capacity to address the fears and anxieties that would otherwise lead us to re-create patterns of separation and division. It is only by healing from injustices and dissolving our personal barriers to connection that we develop the ability to view others with compassion and to live in community with people of vastly different backgrounds and viewpoints. Incorporating mindfulness exercises, research, and Magee's hard-won insights, *The Inner Work of Racial Justice* offers a road map to a more peaceful world.

An eye-opening exploration of race in America In this deeply inspiring book,

Winona Guo and Priya Vulchi recount their experiences talking to people from all walks of life about race and identity on a cross-country tour of America. Spurred by the realization that they had nearly completed high school without hearing any substantive discussion about racism in school, the two young women deferred college admission for a year to collect first-person accounts of how racism plays out in this country every day--and often in unexpected ways. In *Tell Me Who You Are*, Guo and Vulchi reveal the lines that separate us based on race or other perceived differences and how telling our stories--and listening deeply to the stories of others--are the first and most crucial steps we can take towards negating racial inequity in our culture. Featuring interviews with over 150 Americans

accompanied by their photographs, this intimate toolkit also offers a deep examination of the seeds of racism and strategies for effecting change. This groundbreaking book will inspire readers to join Guo and Vulchi in imagining an America in which we can fully understand and appreciate who we are.

"Trainor maintains that racist assertions often originate not from prejudiced attitudes or beliefs but from metaphorical connections between racist ideas and nonracist values. These values are reinforced, even promoted by schooling via "emotioned rules" in place in classrooms: in tacit, unexamined lessons, rituals, and practices that exert a powerful - though largely unacknowledged - persuasive force on student feelings

Based on extensive research, this provocative volume explores how schools are places where racial conflicts often remain hidden at the expense of a healthy school climate and the well-being of other students of colour. Most schools fail to act on racial microaggressions because the stress of negotiating such conflicts is extremely high due to fears of incompetence, public exposure, and accusation. Instead of facing these conflicts head on, schools perpetuate a set of avoidance or coping strategies. The author of this much-needed book uncovers how racial stress undermines student achievement. Students, educators, and social service support staff will

find workable strategies to improve their racial literacy skills to read, recast, and resolve racially stressful encounters when they happen. This book features: a model that applies culturally relevant behavioural stress management strategies to problem-solve racial stress in schools; examples demonstrating workable solutions relevant within predominantly White schools for students, parents, teachers, and administrators; measurable outcomes and strategies for developing racial literacy skills that can be integrated into the K - 12 curriculum and teacher professional development; and teaching and leadership skills that will create a more tolerant and supportive school environment for all students.
