The Preventive Maintenance Monthly is an official publication of the Army, providing information

for all soldiers assigned to combat and combat duties. The magazine covers issues concerning maintenance, maintenance procedures and supply problems.

One element of the Army's transformation strategy is its recapitalization (RECAP) program, which entails rebuilding and selectively upgrading 17 systems. To inform this program's decisionmaking, a two-part analysis was performed to assess the effects of aging on High-Mobility Multipurpose Wheeled Vehicles and to estimate the timing recommended for RECAP and replacement of these vehicles.
