An adventure worthy of legend, for fans of Game of Thrones and Rangers Apprentice When fifteen-year-old Æthelflæd is suddenly and reluctantly betrothed to an ally of her father, the king, her world will never be the same. For as a noblewoman in the late 800s, she will be expected to be meek and unlearned-and Flæd is anything but meek and unlearned. Her marriage will bring peace to her land, but while her royal blood makes her a valuable asset, she is also a vulnerable target. And when enemies attack, Flæd must draw upon her skills and fight to lead her people to safety and prove her worth as a princess-and as a warrior.

filtering you might do. Large sets of filtering rules can be grouped in ways that makes it easy to test them and turn them on and off. Do you watch for all types of ICMP traffic--some of them quite dangerous? Can you take advantage of stateful filtering to simplify the management of TCP connections? Would you like to track how much traffic of various types you get? This pocket reference will help you at those critical moments when someone asks you to open or close a port in a hurry, either to enable some important traffic or to block an attack. The book will keep the subtle syntax straight and help you remember all the values you have to enter in order to be as secure as possible. The book has an introductory section that describes applications, followed by a reference/encyclopaedic section with all the matches and targets arranged alphabetically.

A deeply personal and heartfelt devotional from the beloved author of *The Ragamuffin Gospel*. Raw vulnerability can be scary. It can also save our lives. In this book, Brennan Manning has laid out a month of honest prayers to God, whom he affectionately calls Abba, in an easy-to-use format that can guide your own prayers. Each day contains morning and evening prayers coupled with Scripture and excerpts from Manning's contemporary spiritual classics—in a modern-day collection of psalms, complete with cries for help, expressions of wonder, and invitations into the comforting mercy of God.

This manual of accidents and mistakes asks readers to do the opposite of what they've always been taught and follow three rules: 1. Do not try to make something beautiful. 2. Do not think too much. (There is no "wrong.") 3. Continue under all circumstances.
