Re: Need help finding remanufactured ECM/PCM Mercruiser 8.1L You're original PCM part number was 863620T2 that has now superseded to 865365T02 and you are correct that they do offer a Factory Recalibrated PCM # 863620R03. I didn't notice that last night. The number on your PCM 863620-2 is known as 8636202 when running the number in the computer system and comes up NLA.
