Modern Orientalism is not a brainchild of nineteenth-century European imperialists and colonialists, but, as Urs App demonstrates, was born in the eighteenth century after a very long gestation period defined less by economic or political motives than by religious ideology. Based on sources from a dozen languages, many unavailable in English, The Birth of Orientalism presents a completely new picture of this protracted genesis, its underlying dynamics, and the Western discovery of Asian religions from the sixteenth to the nineteenth century. App documents the immense influence of Japan and China and describes how the Near Eastern cradle of civilization moved toward mother India. Moreover, he shows that some of India's purportedly oldest texts were products of eighteenth-century European authors. Though Western engagement with non-Abrahamic Asian religions reaches back to antiquity and can without exaggeration be called the largest-scale religiocultural encounter in history, it has so far received surprisingly little attention—which is why some of its major features and their role in the birth of modern Orientalism are described here for the first time. The study of Asian documents had a profound impact on Europe's intellectual makeup. Suddenly the Bible had much older competitors from China and India, Sanskrit threatened to replace Hebrew as the world's oldest language, and Judeo-Christianity appeared as a local phenomenon on a dramatically expanded, worldwide canvas of religions and mythologies. Orientalists were called upon as arbiters in a clash that involved neither gold and spices nor colonialism and imperialism but, rather, such fundamental questions as where we come from and who we are: questions of identity that demanded new answers as biblical authority dramatically waned.

Instruction covering four exam modules: listening, reading, writing and speaking. Includes one practice test and answer key. Script of accompanying audio recording.

Presents technical descriptions and histories of aircraft types used for gound attacks and special purposes by the Luftwaffe during World War II.

Is Italy il bel paese—the beautiful country—where tourists spend their vacations looking for art, history, and scenery? Or is it a land whose beauty has been cursed by humanity's greed and nature's cruelty? The answer is largely a matter of narrative and the narrator's vision of Italy. The fifteen essays in Nature and History in Modern Italy investigate that nation's long experience in managing domesticated rather than wild natures and offer insight into these conflicting visions. Italians shaped their land in the most literal sense, producing the landscape, sculpting its heritage, embedding memory in nature, and rendering the two different visions inseparable. The interplay of Italy's rich human history and its dramatic natural diversity is a subject with broad appeal to a wide range of readers.

This challenging sport and activity word search puzzles book is perfect for word puzzles lovers who want to have fun and challenge during free times, vacations, retirement, waiting times, etc, and learn all about sport name players names, champions name, Makes a great Christmas, Birthday, Independence Day, Veterans Day, Thanksgiving, Labor Day, Mother's or Father's Day gift, valentine's day This puzzle book has: word searches puzzles with Printed solutions at the end of the book, about all sports More than 1000 sport and player, players, soccers, to discover Large print words for easy reading
