Professional technicians have relied on the Chilton Labor Guide estimated repair times for decades. This latest edition expands on that reliability by including technical hotline feedback and research from professional labor experts. The labor times reflect actual vehicle conditions found in the aftermarket, including rust, wear and grime. Available in both hardcover and CD-ROM, this completely revised manual provides thousands of labor times for 1981 through current year domestic and imported vehicles. All times reflect technicians' use of aftermarket tools and training.

With three months remaining of her marriage of convenience, Savannah is ready to say goodbye to her spoiled rich boy of a husband. He's annoying and argumentative and used to always getting his way. Sure, he's hot. And maybe occasionally a little bit sweet. But she doesn't want to stay married to him. Not at all. He needed a wife for a year so he could inherit his grandmother's fortune, and she needed to pay off her family's debts. That's all their marriage has ever been about. So she really needs to stop falling into bed with him.

Mathcad for Chemical Engineers demonstrates the use of Mathcad 13, which is the latest version of one of the most powerful and popular computational software packages in the world, for solving various chemical engineering problems. The book serves as a must-to-have guide and quick reference for chemical engineers and those who would like to learn and use Mathcad as their computational tool. This book can also be used as a textbook for chemical engineering education on computing using Mathcad. The book contains many real-life chemical engineering examples from various areas: material and energy balance, thermodynamics, transport phenomena, kinetics and reactor design, unit operations, engineering economics, and operations management. Unlike other books of similar theme, concise, but comprehensive, explanations are given in each chapter and step-by-step procedures of solving mathematical problems are also given for quick reference. Many examples allow readers to experience the power of Mathcad in solving chemical engineering problems. The book has chapters on Mathcad fundamentals, solving a single algebraic equation and a system of algebraic equations, curve fitting, integration and differentiation, solving a single ordinary differential equation (ODE) and a system of ODEs, solving a single partial differential equation (PDE) and a system of PDEs, and programming in Mathcad. There are a number of exercise problems at the end of each chapter that allow readers to further expose themselves to various chemical engineering problems. Although Mathcad 13 is the software package chosen by the authors and used throughout the book, most of the features discussed can also be applied using earlier versions of Mathcad. Furthermore, although Mathcad will always evolve into a newer version, most of the contents in this book will be applicable for any subsequent version of Mathcad.

One stormy night, Erin swerves to avoid a dog in the road/only to end up crashing in the river. Struggling from the wreckage, she picks up the abandoned dog and wanders until she finds a clinic. The doctor, Dom, takes them both in; his warmth makes her chest so tight! The next day, out of nowhere, Erin offers to help Dom since he's so busy. Perhaps by his side, she can find meaning that can counter the listlessness she feels.

The best-selling author of Need You Tonight follows the experiences of a successful author torn between her alluring BDSM neighbor and a seductive bad-boy musician. Includes a teaser for Call on Me and a bonus short story. Original.

Take Hold of God's Vision for Your Life. A Life that is GREATER. This companion guide to Steven Furtick's life-changing Greater DVD will help you take the next step!and the ones after that!to follow Jesus's call to do even greater things than He did (John 14:12). Drawn from the powerful book Greater!and designed to be used with the Greater DVD!this user-friendly resource shows you how to apply four !greater!releasing principles from the prophet Elisha's life: · Burn the Plows: Make a decisive break with your old life. · Digging Ditches: Start small and make practical preparations. · Upon Further Review: Live with the knowledge that faith is never wasted. · Strike the Water: Step out to live the greater life God promises. Each chapter includes a study plan that corresponds with the DVD, discussion questions, space for individual reflection, a Bible study, and suggestions for group leaders. Created to ignite your passion and move you forward, the Greater DVD Participant's Guide will inspire you to reach for the greater life!and show you how to get there. DVD not included.

From the Sunday Times bestseller comes a stunning novel that will warm your heart !The feeling you get when you read a Milly Johnson book should be bottled and made available on the NHS! Debbie Johnson 'Clear your house and clear your mind. Don't let life's clutter dictate to you. Throw it away and take back the control!' When Lou Winter picks up a dog-eared magazine in the dentist's waiting room and spots an article about clearing clutter, she little realises how it will change her life. What begins as an earnest spring clean soon spirals out of control. Lou's loved ones grow disgruntled. Why is clearing out cupboards suddenly more important than making his breakfast, her husband Phil wonders? The truth is, the more rubbish Lou lets go of, the more light and air can get to those painful, closed-up places at the centre of her heart. Even lovely Tom Broom, the man who delivers Lou's skips, starts to grow concerned about his sweetest customer. But Lou is a woman on a mission, and not even she knows where it will end. . . Praise for Milly Johnson: 'Every time you discover a new Milly book, it's like finding a pot of gold' 'heat' A glorious, heartfelt novel' Rowan Coleman 'Absolutely loved it. Milly's writing is like getting a big hug with just the right amount of bite underneath. I was rooting for Bonnie from the start' Jane Fallon 'Bursting with warmth and joie de vivre!' Jill Mansell 'Warm, optimistic and romantic!' Katie Forde
